

BUSINESS TAKEN TO NEW HEIGHTS

FLEET & BUSINESS RANGE BROCHURE

WHY CHOOSE JAGUAR LAND ROVER?

As the UK's largest premium automotive manufacturer, our award-winning vehicles are developed with business customer requirements in mind. Appealing design, competitive Total Cost of Ownership, low emissions and strong Residual Values are combined to make a compelling proposition.

That's why some of the world's largest corporations trust us to take care of their fleet and business needs. In fact, our sales have doubled since 2009 as more and more companies, from multinational firms to family-owned businesses, choose us for our distinctive products and knowledgeable and experienced sales teams.

But that's just the start. We're delighted to announce that as part of a £450 million expansion programme, we plan to double the size of our UK-based Engine Manufacturing Centre to 200,000 square metres. What's more, we will invest £1 billion to open a premium manufacturing plant in Slovakia, which we plan to be fully operational by 2018. These significant developments will complement our existing facilities in the UK, China, India and Brazil and mark the next step in our strategy to become the fleet and business premium manufacturer of choice.

You'll see from this brochure that this is a very exciting time for us with the launch of a succession of new vehicles, ideal for business customers. With such a comprehensive range of products across our two brands, alongside our team of specialists, committed to delivering excellent customer service, it's time to seriously consider us for your fleet. Please contact one of our Fleet & Business Sales Managers in your country for more information.

Kind regards

Ken Forbes

Global Fleet & Business Director
Jaguar Land Rover

FIND YOUR JAGUAR

Agile and powerful; sleek and seductive; confident and instinctive – choose a Jaguar, and every journey becomes a pleasure, and an opportunity for your company to demonstrate that it's no ordinary business.

Jaguar XE
CO₂ Emissions from 99g/km

Jaguar XF
CO₂ Emissions from 104g/km

Jaguar F-TYPE Convertible
CO₂ Emissions from 199g/km

Jaguar XJ
CO₂ Emissions from 149g/km

Jaguar F-TYPE Coupé
CO₂ Emissions from 199g/km

Since the first Jaguar car was produced in 1935, Jaguar has pushed the boundaries of what is possible. Jaguar's founder, Sir William Lyons, insisted that every car the company produced combined performance and beauty like no other. His uncompromising vision set new benchmarks that Jaguar still lives by. It's what we now call "The Art of Performance".

Discover how the assertive style of our award-winning, efficient and dynamic cars can set your business apart from the competition.

Jaguar F-PACE
CO₂ Emissions from 129g/km

Discovery Sport
CO₂ Emissions from 123g/km

Range Rover Evoque Convertible
CO₂ Emissions from 149g/km

Range Rover Sport
CO₂ Emissions from 164g/km

Back in 1947, Land Rover's first innovator, Maurice Wilks, wanted a versatile vehicle that could double as a light tractor and off-roader. He sketched the silhouette of the original Land Rover in the sand on a beach in Wales. His forward-thinking design went on to change history, mastering all manner of terrain and capturing hearts around the world.

Decades of innovation have taken Land Rover 'Above and Beyond'. Today our range of capable SUVs offers unprecedented capability and composure for innovative, dynamic and adventurous companies, who want a fleet that's just as accomplished.

FIND YOUR LAND ROVER

From touring holidays along rocky mountain trails to business trips through smart city streets, each one of our award-winning vehicles is ready for anything.

CO₂ Emissions from 159g/km

Range Rover
CO₂ Emissions from 164g/km

VALUE THAT LASTS

At Jaguar Land Rover we understand the importance of Total Cost of Ownership. That's why all our models are built from the ground up with the needs of businesses in mind.

We know that depreciation can account for around half of Total Cost of Ownership. We work hard to achieve strong Residual Values through desirable vehicles, careful management of supply and demand, cutting-edge technology and a robust Approved programme. As a result, many of our vehicles achieve strong Residual Values and are often 'best-in-class' versus key segment competitors.

As part of our commitment to low Total Cost of Ownership we have created a range of energy-saving innovations, such as our cutting-edge range of Ingenium engines. These remarkable advances feature in Land Rover's E-Capability Discovery Sport and E-Capability Evoque models, as well as Jaguar's E-Performance XE and E-Performance XF models. Helping to make them the most efficient vehicles in our range, with impressive fuel economy and low CO₂ emissions. Which of course means lower vehicle tax and better running costs for your business.

CUSTOMER SATISFACTION AND PEACE OF MIND

With extensive experience across a range of industries, our highly trained Sales & Aftersales team will be by your side from day one and throughout your ownership, to make managing and maintaining your fleet as simple as possible.

ONE POINT OF CONTACT

You'll be given a dedicated Fleet & Business Sales and Aftersales Manager who will assist you with every part of the decision making process.

SERVICE PLANS

Fixed price service plans cover the cost of routine servicing for the length of your chosen plan and provide reassurance that the vehicle is performing at its best. They also help to optimise the vehicle's Residual Value.

ROADSIDE ASSISTANCE

A comprehensive, tailored programme for complete and best-in-class emergency cover and support. We can help in all motoring emergencies from breakdowns to accidents and ensure that your journeys, and your business, keep running as quickly and smoothly as possible, whatever the circumstances.

EXTENDED WARRANTY

Once your Manufacturer Warranty expires, we offer an extended warranty for longer lasting peace of mind.

ACCIDENT SERVICES

We'll go the extra mile to get drivers back behind the wheel quickly. We use only Jaguar or Land Rover Approved Body and Paint Centres and ensure vehicles are returned in a pristine condition.

JAGUAR CARE

Jaguar Care makes owning a Jaguar easier than ever before - bringing peace of mind by eliminating scheduled maintenance costs for the first three years of ownership, regardless of mileage (excluding wear and tear)*.

*Jaguar Care available across most European markets excluding UK, Switzerland and Turkey, please check with your local retailer for market coverage and optional service plan availability.

INGENIOUS

TECHNOLOGICALLY ADVANCED

Weighing up to 80kg less than previous engines, Ingenium uses patented technologies to reduce friction and deliver refinement and performance

OUR MOST FUEL-EFFICIENT ENGINE EVER
Can achieve up to 75.0mpg (3.8l/100km) (combined cycle)

ENVIRONMENTALLY FRIENDLY

Lowers emissions including CO₂ and nitrogen oxides

SMOOTH AND QUIET DRIVE

Offers an enhanced driving experience thanks to a lighter engine

ENHANCED PERFORMANCE

Delivers impressive torque for quicker acceleration

COST-EFFECTIVE

Better fuel efficiency and reduced emissions means less expenditure on fuel and tax, plus service intervals are longer

INGENIUM

What is Ingenium?
Simply put, Ingenium is the future of Jaguar and Land Rover engines.

Designed and developed in the UK, by some of the world's finest engineers, the Ingenium engine was built to perform for business. It maximises performance, while at the same time driving down running costs, with impressive fuel economy and low CO₂ emissions.

As well as complying with the latest Euro 6 emissions standards, the state-of-the-art modular Ingenium engine has the flexibility to integrate future technology advances and regulation changes.

Already, the Ingenium engine has been introduced to the Jaguar XE, XF, All-New F-PACE, Land Rover Discovery Sport, All-New Discovery, Range Rover Evoque and Range Rover Sport. It will also feature in many of our future models.

YOU'RE IN CONTROL

InControl is our cutting-edge infotainment system, which gives you unprecedented control of your in-car environment, whether you're in the driver's seat or away from your vehicle.

It features a bespoke suite of apps and services to help you manage your business effectively on the road.

INFOTAINMENT

Seamlessly navigate to meetings and keep in touch with the office while you're on the road, with the intuitive InControl Touch 8 inch Touch-screen, or enjoy a 10.2 inch Touch-screen when you upgrade to InControl Touch Pro. Both* infotainment systems allow you to easily control your smartphone, compatible apps and major functions including audio, climate control, satellite navigation and phone connectivity.

INCONTROL SECURE

In the event of theft, InControl Secure uses tracking technology to alert you to an attempted theft and signals your vehicle's location to the relevant authorities, helping pinpoint and recover your vehicle as quickly as possible.

*XJ comes with InControl Touch Pro as standard featuring an 8 inch screen.
All features and options remain model and market dependent.

CONNECTIVITY

A powerful external aerial provides the strongest possible mobile and Wi-Fi signal for up to eight devices. Ideal for conducting business on the go. It also allows you to control in-car features and compatible apps, from your smartphone, including InControl Remote Premium, which allows you to interact with your vehicle remotely.

As an upgrade to InControl Touch Pro, Connect Pro offers additional services to further enhance the connected experience.

INCONTROL PROTECT

If you find yourself in an emergency, SOS Emergency call notifies the emergency services of the location of your vehicle. In the unlikely event of a breakdown, Optimised Assistance transmits your current location and vehicle diagnostic data to your recovery company.

Also included is the Remote smartphone app, which enables you to remotely view your fuel level, your business miles and much more, wherever you are.

MEET THE TEAM

If you’re curious to hear more about what we can offer, don’t hesitate to get in touch.
