## Prescription Refills

Refill requests are handled during normal office hours when our staff has full access to medical records. Refills cannot be called in on holidays, weekends or more than twelve months after your last exam. Please have your pharmacy contact our office directly.

## Test Results

You will be notified when we receive your pathology or other test results, usually within two weeks from the date of your procedure. If you do not hear from us within three weeks of your procedure, please call and notify our staff.

## Fees, Payment & Insurance

We participate in many insurance plans. Please be certain to provide our office with your insurance card or other billing information, completed and signed insurance forms, and all required referral and authorization forms prior to or at the time of each visit. If you do not have the necessary referral information at the time of your visit, you may be asked to reschedule your appointment.
