Welcome to our **furniture overview** brochure, bringing you ideas of the best in design, function and value for modern, efficient working environments.

Furniture can make a very positive difference to an office and its activities. Working practices become more efficient, staff are happier, productivity and staff retention levels increase and so does client confidence. Well specified furniture will also readily adapt to changing working practices as an organisation evolves, achieving long term goals.

We work with leading furniture manufacturers to provide you with a complete portfolio of furniture designs and systems.

We offer a complete office furniture service including:

- Consultation and Planning
- Project management
- Installation and Disposal
- After sales support

reception counters

the quality statement

Where first impressions count! Reception areas speak volumes, this is the first place to establish the kind of organization you are. A good quality, well designed reception builds confidence in your clients and suppliers alike.

Whether it be a traditional or modern contemporary feel, we specialize in providing an effective solution.

Synthesis

Camba

reception counters

lead the way

Modern manufacturing techniques allow the inclusion of a wide range of materials such as stainless steel, aluminium, glass and granite to create very individual and contemporary results. Whilst function and practicality is never overlooked, adventurous designs can bring a 'wow' into your reception area.

Cambio veneer

Cambio laminate

Magnus

style and comfort

A combination of style, comfort and practicality has been used to develop our range of upholstered seating for reception and break-out areas. Available in an interesting range of fabrics and leathers to suit any environment.

Tapus

Track

Tenera

design and innovation

With so many designs available creating your own unique reception area has never been more rewarding. The clever 'Pera' sofa (opposite) even has an integral power and data module for touch-down purposes.

Como

Quorus

Laylus

contemporary, individual designs

Tap

Cheer

Cool

functional, flexible and fun

Simple clean lines and imaginative designs blend together to create a popular solution to informal seating areas. This trendy collection is suited to schools, colleges and public areas as well as commercial environments. Contact us for more designs and colour options.

long term comfort

Task chairs are becoming increasingly recognised as the most important item on the furniture list. Ergonomics in the workplace are centred around what you sit on. Correct posture, especially when performing long or repetitive tasks, is essential to prevent strains, aches and poor blood circulation.

solutions that work

Quality steel storage units offer the most comprehensive range of storage and filing applications. From suspension files to clothes lockers there is a system to meet every requirement. Now available in a wide range of dimensions and colourways this system compliments any interior environment.

using space effectively

Providing space-efficient, innovative and practical storage solutions for every working area.

The way we need to work often conflicts with the restraints of the surrounding interior and space available. Storagewall removes limitations, frees up space and provides an efficient working environment.

It is widely acknowledged that the environment in which people work has a major influence on their concentration, performance and productivity.

Accolade Commercial Interiors have over 25 years' experience in designing and creating comfortable and efficient working environments, from installing two or three workstations to fitting out a major office complex.

Whether you are looking to refurbish a reception, office, call centre, conference or boardroom, Accolade Commercial Interiors will provide you with an attractive, practical solution that will maximise the potential of your workplace.

design by experience

design & implementation

- Space planning
- Space analysis
- Interior design schemes
- Relocation management
- Refurbishment projects
- Environmental endorsement
- Removals & furniture disposals

space analysis & planning

With the benefit of over 25 years' experience our design team will get the best out of your work place. By evaluating your space we work out the most effective way of using it. This is done whilst taking into account function, work patterns, space efficiency and aesthetics as well as relevant regulations. CAD drawings are then presented for your appraisal.

interior design

The coordination of components that make up a successful interior involves creativity, resourcefulness and understanding. We ensure that design is not just a trendy fad but something that is sustainable. From floor to ceiling our design team will make your interior one to envy, in both aesthetics and function.

recent projects

project management

Nothing beats experience in this field. We respect that your organization can be severely disrupted by the implications of relocation or refurbishment and our aim is to keep this to a minimum. Honesty, careful planning and regular assessments of progress ensure projects run smoothly and are completed on time.

fit-out & installation

You have the peace that all work is carried out by persons who are trained for the task. Clear method statements and risk assessments are standard practise. We are as keen as you are to ensure the quality of workmanship and safety awareness is second to none.
