

Mines Safety Roadshow

2018

Government of Western Australia
Department of Mines, Industry Regulation and Safety

A day in the life of **a safety and health representative**

Supporting those who make our workplace safer

Bunbury Cloudbreak Geraldton Kalgoorlie Karratha Leonora
Mandurah Newman Perth Port Hedland Tom Price

Invitation to attend

The 2018 Mines Safety Roadshow is the fourteenth in an annual series presented by the Department of Mines, Industry Regulation and Safety. It is an interactive event that encourages engagement and the exchange of ideas.

The program starts with an update on what is happening in mines safety and health in Western Australia from both regulatory and industry perspectives.

Our focus will be the importance of safety and health representatives (SHReps) and the key roles they play in the consultation and promotion of safe work practices within the minerals industry. The program showcases three new safety videos, as well as the *Emergency management for Western Australian mines – code of practice* and workshops on mentally healthy workplaces and investigations in serious and fatal accidents.

Safety and health representatives, safety committee members, supervisors and others responsible for safety and health are encouraged to attend.

Bookings are essential.

The roadshows aim to raise awareness and share solutions, rather than provide professional development.
