## **2018 California Almond Nursery Sales Report Delayed**

Sacramento, CA – The 2018 California Almond Nursery Sales Report will be delayed due to data collection issues. The primary objective of the California Almond Nursery Sales Survey is to estimate future almond acres based on the number of almond trees sold for new plantings. The report publication date is pending at this time.

This report will summarize data supplied by California nurseries throughout the State who sold to almond growers for commercial plantings. Results from this survey will be used in conjunction with the Almond Acreage Survey to estimate the almond acres in California.

To receive a copy of the report by email, [subscribe](#) to the California Fruit list here. Once the report is published, subscribers will receive a copy of the report by email. The report will also be posted on the [www.nass.usda.gov/ca](http://www.nass.usda.gov/ca) website on the [Almond page](#). For more information call the NASS Pacific Regional Office at 1-800-851-1127.
