# About this document

This document comprises of the **Delivery Program 2018-2021** and **Operational Plan 2019-2020**.

The Delivery Program translates our community's expectations, detailed in the Community Strategic Plan, into **Strategies**. It Council's response and commitment to the community, outlining what it intends to do during its current three year term of office (2018-2021) to achieve these Objectives. It is the point of reference for all principal plans, projects, activities and funding allocations undertaken by Council.

The Operational Plan further breaks down the Strategies into more specific **Actions** for each year of the Delivery Program. It identifies individual projects and activities that will be undertaken in that year to achieve the Strategies in the Delivery Program and has a strong focus on financial sustainability and asset renewal. The Operational Plan is supported by a detailed budget and revenue policy which sets out rates, fees and charges for the year.

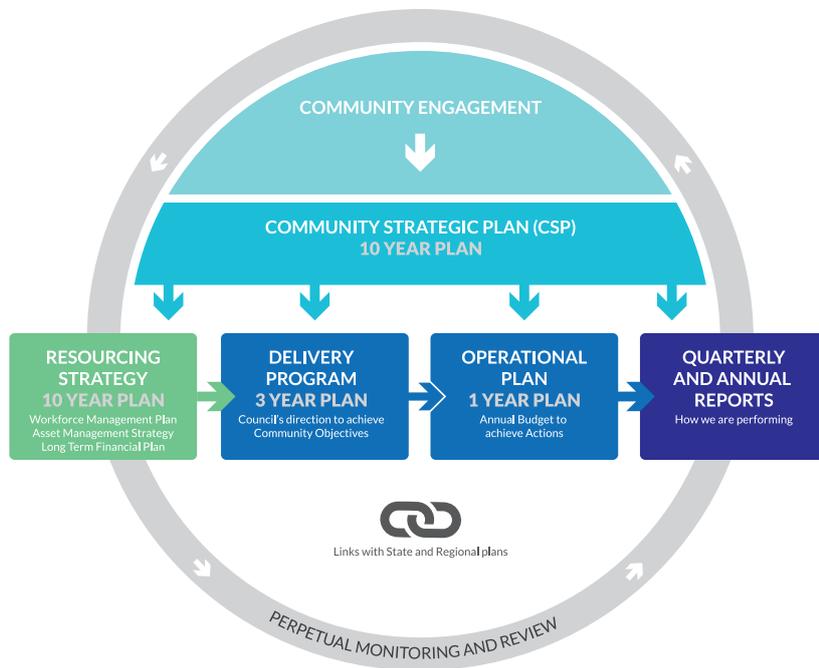

## The Integrated Planning and Reporting (IP&R) Framework

The Delivery Program and Operational Plan are part of a suite of planning and reporting documents that make up the **Integrated Planning and Reporting framework**. The Framework provides Councils in NSW the opportunity to work with their communities to develop a long term plan for their areas. The Framework is a legislative requirement which forms part of the Local Government Act 1993. The Framework is designed so that community and Council both have a clear picture of:

- Where we want to go (Community Strategic Plan)
- How we plan to get there (Resourcing Strategy, Delivery Program, Operational Plan)
- How we will measure our progress (quarterly, annual and end of term reports)

The Framework consists of four layers of plans – the Community Strategic Plan, Resourcing Strategy, Delivery Program, and Operational Plan. The following diagram shows the relationship between the documents.

**Please note:** The Delivery Program is usually a four year program to reflect the term of office of elected Council. However due to a proposed merger which subsequently did not proceed, Shellharbour City Council's current term has been shortened to three years in this instance. This will enable Council to fall back into line with the state-wide council election cycle and return to a four year term in the year 2020-21.

Figure 1 - Integrated Planning & Reporting Framework

### Quadruple Bottom Line

Underlying the IP&R framework is the **Quadruple Bottom Line (QBL)**.

The QBL is represented by four key focus areas

- **Community**
- **Environment**
- **Economy**
- **Leadership**

which ensure that Council's planning is balanced and takes an all-inclusive view of its local government area.

### Planning for the future

The Delivery Program and Operational Plan are developed in conjunction with the Community Strategic Plan and Resourcing Strategy all of which are interrelated and work together as a strategic tool to guide Council's efforts into the future. On the following page is a summary of the Integrated Planning and Reporting planning documents.

## COMMUNITY STRATEGIC PLAN (CSP)

### *What the community wants.*

The *Community Strategic Plan 2018-2028* is the highest level plan, setting Council's direction for the next 10 years and from which all other plans cascade. It is developed in consultation with the community and translates the community's priorities and aspirations into ten key **objectives** across the four focus areas. These objectives reflect our community's vision for what and how Shellharbour City should look like in 10 years.

## RESOURCING STRATEGY

### *How to deliver what the community wants*

The *Resourcing Strategy* is the supporting document to Council's IP&R plans and identifies the resources – money, assets and people - needed to deliver on the community's objectives and subsequent strategies and actions listed in the Community Strategic Plan, Delivery Program and Operational Plan. There are 3 separate plans which make up the Resourcing Strategy.

- **Long Term Financial Plan** - This ten year plan helps us to better understand our long term financial position. It focuses on the costs associated with meeting the community's expectations in terms of the key objectives identified in the Community Strategic Plan along with the continued provision of current services at appropriate levels. In adopting a 10 year view, priorities can be determined in light of Council's existing funding levels or if there is a need for additional sources of funding.
- **Asset Management Strategy** - This comprehensive aspect of the Resourcing Strategy also adopts a ten year view and includes the *Asset Management Policy*, *Asset Management Strategy* and an *Asset Management Plan* for each class of assets in Council's care. Together these different components identify the current status and long term projections of asset maintenance, renewal and replacement costs so that Council can meet the Community Strategic Plan objectives and continue to deliver services sustainably.
- **Workforce Management Plan** - This four year plan focuses on Council's workforce capacity in terms of staffing, skills and human resources needed to meet the community's objectives identified in the Community Strategic Plan including the current and future service and operational needs of Shellharbour City.

## DELIVERY PROGRAM AND OPERATIONAL PLAN

### *What we will deliver and tracking our progress*

The focus of this document is on the **strategies** and **actions** Council will pursue to deliver on the community's ten key objectives as described within these pages.

## **Perpetual monitoring and review**

The Community Strategic Plan, Resourcing Strategy and Delivery Program undergo a thorough review in the year following a Council election. The review of the current documents (2018-2021 Delivery Program) was undertaken in 2017-2018 and came into effective from 1 July 2018. The next major review will occur in 2021-2022. However, as 'living' documents, they are refreshed annually.

## **Accountability**

All the Strategies and Actions outlined in the Delivery Program and Operational Plan are integrated throughout Council's internal processes including group Business Plans. We report the effectiveness of Council's progress in achieving the Strategies and Actions, through an integrated software system that includes assignment of responsibility, timeframes, measures, performance status and consistent performance updates. We report to the Council and community quarterly, annually and at the end of each Council term on our progress.

# Mayor's Message

I am proud to present an update on Shellharbour City Council's Delivery Program 2018-2021 and Operational Plan 2019-2020. The plans are successfully being implemented, delivering valuable facilities, services and opportunities for our community.

I was delighted with the recent announcement of \$15.97 million funding from the NSW Government's Growing Local Economies program, as part of the Regional Growth Fund, for additions and upgrades to Illawarra Regional Airport at Albion Park Rail. This funding came just two months after regional airline Fly Corporate began its successful services to Melbourne and Brisbane. These improvements will help fund the construction of a new passenger terminal building, aviation business park and upgrades to short and long-term carparks. The project is part of a strategic business plan to enable airport growth, foster economic development and create jobs for our community.

Council will continue its implementation of the Shellharbour City Libraries & Museum Strategy 2024 with the construction of the new Warilla Library and improvements to Oak Flats Library. Activating all libraries with creative and innovative programs that meet community needs remains a key focus. City Library, located at the Shellharbour Civic Centre, opened its doors in January 2018 and has recorded over 140,000 visits, with more than 205,000 items loaned to customers. More than 4000 members have joined, which is a magnificent achievement in such a short space of time.

Council's new Events Strategy 2018-2021 details an action plan for developing and attracting new events to the city, while growing existing events. This strategy aims to make it easier for people to run events in our City, as well as focus on new events that will be unique to Shellharbour. I am excited about seeing these opportunities come to fruition for the benefit of our community.

Council also recently adopted a comprehensive Youth Plan that reflects the needs, hopes and ambitions of Shellharbour's young people. The plan aims to promote collective action from the entire Shellharbour community in response to priorities identified by young people. It sets out the long-term goals and key partners that can work together to achieve them and I am proud of the fact that our City's young people contributed with such enthusiasm.

We are also embarking on a significant program of playground renewals and construction of new playgrounds which will greatly benefit families throughout the City.

I am excited about the future and look forward to the continued delivery of services and facilities for our community.

# General Manager's Message

I am pleased to present Shellharbour City Council's Delivery Program 2018-2021 and Operational Plan 2019-2020.

In accordance with the NSW Integrated Planning and Reporting (IP&R) framework requirements, Council must have a Delivery Program, which normally runs for four years. The Delivery Program is broken into 12 month-long parts called an Operational Plan. The Operational Plan identifies actions that Council will undertake within the financial year towards addressing the strategies in the Delivery Program.

Over the life of the Delivery Program, Council must ensure there is an ongoing focus on asset renewal and infrastructure maintenance to ensure the City's future sustainability. It will also focus on effective and efficient service delivery and operational expenditure.

Major projects that are underway include the construction of the new Warilla Library, continued progress on the Shell Cove project and the revitalisation of amenity buildings at Geoff Shaw Oval in Oak Flats and Howard Fowles Oval at Lake Illawarra.

Further to this, key projects to commence construction under this Delivery Program include the Illawarra Regional Airport Upgrade, Stronger Country Communities Funded projects - Albion Park and Oak Flats Pool Upgrades and Albion Park Showgrounds and Centenary Hall and Reddall Reserve and McDonald Park Playground Upgrades.

As an organisation, Council continues its significant internal reform program to better meet the needs of its Customers and the broader Community while ensuring we remain sustainable and well managed into the future. Council staff are also developing ways it can better assist Councillors in the work they do through its Core Values of Collaboration, Accountability, Integrity, Respect and Sustainability.

The reforms are underpinned by a business improvement program based on continuous process refinement, aimed at ensuring staff are delivering benefits for the Community, Councillors, Customers and of course, the Council itself.

# Shellharbour City - who we are

# Our City

Shellharbour City is located in the Illawarra Region of NSW and is about 100 kilometres south of Sydney. The Local Government Area borders the City of Wollongong to the north, with the boundaries of Lake Illawarra and Macquarie Rivulet, and the Municipality of Kiama to the south, with the boundary of Killalea State Park. It stretches from the South Pacific Ocean to the east through to the Illawarra Escarpment that forms a natural boundary to the west.

Our City is an expanding urban area with significant rural Shellharbour areas and some industrial and commercial land uses. It encompasses a total land area of about 147 square kilometres, including beaches, rivers, National and State parks and other significant parklands. The main urban centres are Shellharbour City Centre, Shellharbour, Albion Park, Warilla and Oak Flats. Most of the rural areas are in the south and west, with rural land used mainly for crop farming, dairy farming and grazing.

The original inhabitants of this region are the Wodi Wodi and Dharawal people with human activity in the area being traced back 17,000 years. European settlers began arriving in the early nineteenth century and the township, then known as Peterborough, was declared a municipality in 1851. The name Shellharbour (referring to the vast quantity of shells on its shores) was officially recognised in 1885.

During the 1990s, growth took place particularly in the eastern areas of the City, around the suburbs of Warilla, Mount Warrigal, Barrack Point and Barrack Heights, however, within the last ten years, growth has been greatest in the new release areas of Albion Park, Flinders, Blackbutt and Shell Cove. In 1996, Shellharbour was gazetted as a City.

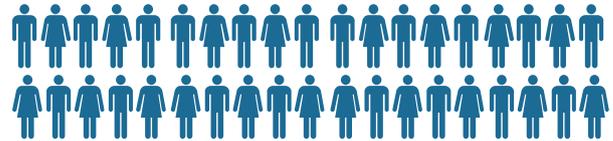

The 2016 Census shows an estimated population of 70,391. Population growth rates in Shellharbour have been consistently above the average for the Illawarra region because of the in-migration of young families and couples attracted to the relatively affordable housing, employment opportunities locally or in nearby areas and the coastal location. The population is forecasted to grow over 20% by 2036 with population changes influenced by two key factors. The older established suburbs such as Warilla and Oak Flats will undergo a new cycle of population growth and change as older persons leave their homes and make their way for younger households, including families. Meanwhile, ongoing urban development within Shell Cove (particularly the Marina and Waterfront precinct), rural areas of Tullimbar and Calderwood Valley and Shellharbour City Centre will attract more people to the area. Our City is growing and together with the many natural and built attractions on offer, this will strengthen Shellharbour's role as a destination regional city.

# Our Local Government Area

# Our Councillors

Councillors are elected to represent the collective interests of our Community as well as future interests of our City as a whole. Shellharbour City Council comprises of seven members who were elected in September 2017 and will serve a three year term until the next local government elections in 2020.

Council elected Cr Marianne Saliba and Cr John Murray as the Mayor and Deputy Mayor of Shellharbour City respectively. Based on our Community's responses to the referendum held as part of the 2017 election, this will change at the 2020 election when the Mayor will be elected by the Community and the City will comprise of wards.

## Council committees

Shellharbour City Council has established a number of consultative groups to support the delivery of the strategies and actions outlined in this document. A structure of committees and working parties, which comprise Councillor representatives, exist to provide strategic advice, make recommendations and inform decision making on specific areas of community interest. The committees also include community representatives from other government agencies, businesses and/or individual community members. This supports regular communication and consultation between Council and our community to ensure Council's activities reflect the changing environment in which we live, work and play.

Several key committees and working parties include:

### Advisory Committees

- Australia Day Committee
- Disability Access and Inclusion Advisory Committee
- Illawarra Regional Airport Management Advisory Committee
- Shellharbour Aboriginal Advisory Committee

### External Committees

- Horsley Creek Floodplain Risk Management Committee
- Lake Illawarra/Mt Warrigal/Oak Flats Floodplain Risk Management Committee
- Macquarie Rivulet Catchment Risk Management Committee
- Shellharbour Traffic Committee
- CivicRisk WEST and CivicRisk MUTUAL BOARDS

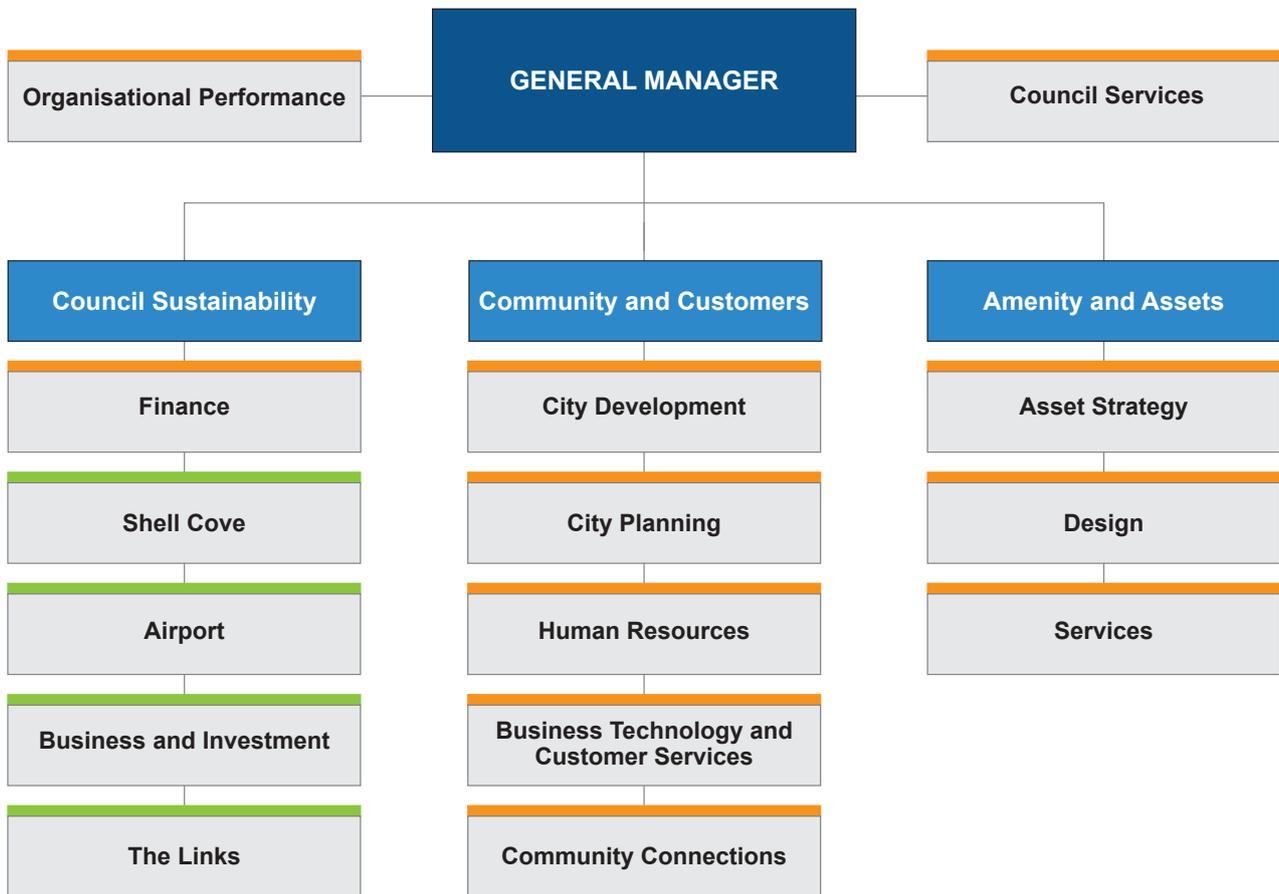

### Working parties

- Aquatic Facilities Working Party
- Illawarra Airport Operations Working Party
- Sport and Recreation Working Party

For a full list and details of all Council's committees and working parties, please refer to Council's website.

# Our Organisation

Council's functions and services are grouped to support a program of organisational reforms introduced in 2017 which focus on delivering benefits to the Community, Councillors, Customers and Council (4C's).

# Our Challenges 4C's

The Community Strategic Plan (CSP) seeks to provide benefits to four key stakeholders - Community, Councillors, Customers and the Council - to ensure Council's financial sustainability. What Council does and the actions we take to achieve these benefits, in the form of services, operations, infrastructure and amenity, are detailed in this document in four key focus areas known as the Quadruple Bottom Line (QBL) - Community, Environment, Economy and Leadership.

Over the life of the Delivery Program, there will be many challenges in achieving these benefits. Meeting these challenges will need Council's focus and we will need to utilise and manage the community's resources in a responsible and professional way. The particular challenges Council faces in delivering benefits to each of the stakeholders can be summarised as follows:

## Community

We will need to help the parts of our growing community, particularly those in Shell Cove and Calderwood, to build connections with each other. A strong community is one that is connected not just physically but also in terms of aspirations and a desire to improve the amenity of its city.

Ensuring we have a built and a natural environment that our community values and can enjoy - in a way that is safe and encouraging - will be challenging for a growing population and the Council that serves it.

We will need to identify, explore and, where possible, exploit these opportunities that exist for economic development, providing our City's current and future communities with local employment and business opportunities.

## Customers

Robust business processes need to be in place to ensure transparency, accountability, repeatability and reliability. While this will be the focus of Council's business improvement program over the life of the Delivery Program; a challenge will be developing business processes for Council's services and operations in a way that is customer responsive as well as effective and efficient.

Council is currently developing a customer charter; the aim of which is setting the behaviours, accountabilities and expectations that Council staff will have when interacting with our customers. The challenge for Council will be to transform this strategic ambition into real and practical outcomes for the customer and delivering these benefits in a prompt and communicative way that meets their needs.

## Councillors

The elected Council will need to meet the challenge of careful stewardship of the financial resources the community provides us in order to plan for the future while also being able to afford the present. Council staff will need to meet the challenge of assisting the Councillors in that endeavour through the advice we give and the recommendations we make.

Challenging also, will be adopting a capital expenditure program over the life of the Delivery Program that meets the needs of our community while also remaining within Council's financial means.

## Council

Council will be challenged by the need to obtain and maintain long term economic sustainability and source our own revenue streams that will reduce dependence on land rates, grants and levies. This will give us greater flexibility in the way we resource the work we do on behalf of our community.

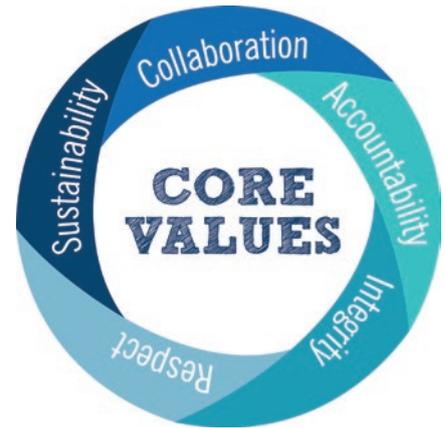

We need to be relevant and vital to the community we serve. The challenge will be to determine how to achieve an important place in the lives of our community; to increase the quality of their lives in a way that is valued by them.

Another key challenge for Council will be making sure we continuously improve everything we do. There are no services or operations that we cannot or should not improve. Rather, through effectively managing the quality of our services and operations, we can demonstrate that we want to progress from our current state to an improved state where we can better meet the needs of those we serve – our community.

# Our Values

Shellharbour City Council's Core Values provide the foundation for our organisational culture and the way in which we interact with, and provide services to, our Community, Councillors, Customers and Council.

This includes guiding the way in which we deliver the strategies and actions outlined in this document.

## COLLABORATION

We seek opportunities to develop teamwork and cooperation to support high performance.

We work together with our Community, Councillors, Customers and Council to achieve shared goals and the best outcomes.

We communicate and listen openly and honestly to ensure information is shared in an efficient, transparent and timely way.

## ACCOUNTABILITY

I take responsibility for what I do and what I don't do.

I demonstrate my commitment to deliver quality, reliable and professional services to our Community, Councillors, Customers and Council.

I recognise my responsibility to learn, change and improve performance.

## INTEGRITY

We behave professionally, ethically and reliably in everything we say and do.

We are genuine, honest and transparent.

We have the courage to do what is right when it's not the easiest route.

## RESPECT

I embrace diversity and welcome differences in backgrounds, experiences and viewpoints.

I am friendly, open and polite in all my communications.

I listen to and value the contributions of others.

We support a safe and healthy work environment that treats everyone with fairness and equity.

## SUSTAINABILITY

I seek to reflect community needs in the services I deliver.

We make decisions today that will positively impact on Shellharbour City and its environment for generations to come.

We adopt a long term view in the decisions we make and the actions we take so we can deliver enduring benefits to our community well into the future.

We encourage creativity, innovation and continuous improvement to achieve a lasting impact.

# Our Services

While the focus of this document is on the Strategies and Actions Council has developed to address the community's objectives in the next few years; we also deliver a wide range of day-to-day services to our local community – residents, businesses and visitors – as well as services to support our internal customers. These are listed below.

Also included are the key supporting strategies and plans that work hand-in-hand with our IP&R plans in mapping out our City's future direction and the services we deliver. These strategies and plans are reviewed periodically and can be viewed in full on Council's website.

# How to read this section

This section details the **Strategies** Council will implement in the three years from 1 July 2018 to 30 June 2021 of our Delivery Program and the specific **Actions** we will undertake during the period of our Operational Plan, currently 1 July 2019 to 30 June 2020. It shows the relationship between Council's strategies and actions and how they address the community's ten key objectives. Measures, which will be used to track our progress, have been included as well as the budget to fund the actions each year.

The following is a guide on how to read this section.

## New Projects - 2019-2020

New projects involve the creation of new assets and/or involve works to improve or enhance an asset beyond the asset's original capacity or function. These projects typically either cater for demand through population growth and tourism, provide environmental benefit or improve public safety.

In 2019-2020 Council has proposed to spend \$20,051,000 on new projects in various locations across the city. The following table outlines proposed renewal projects to be implemented over the Delivery Program period.

# Rates, Annual Charges & Proposed Borrowings

Section 201 of the Local Government (General) Regulation requires Councils to produce various statements as part of its annual Revenue Policy. Outlined below are a number of these statements.

## Ordinary Rates

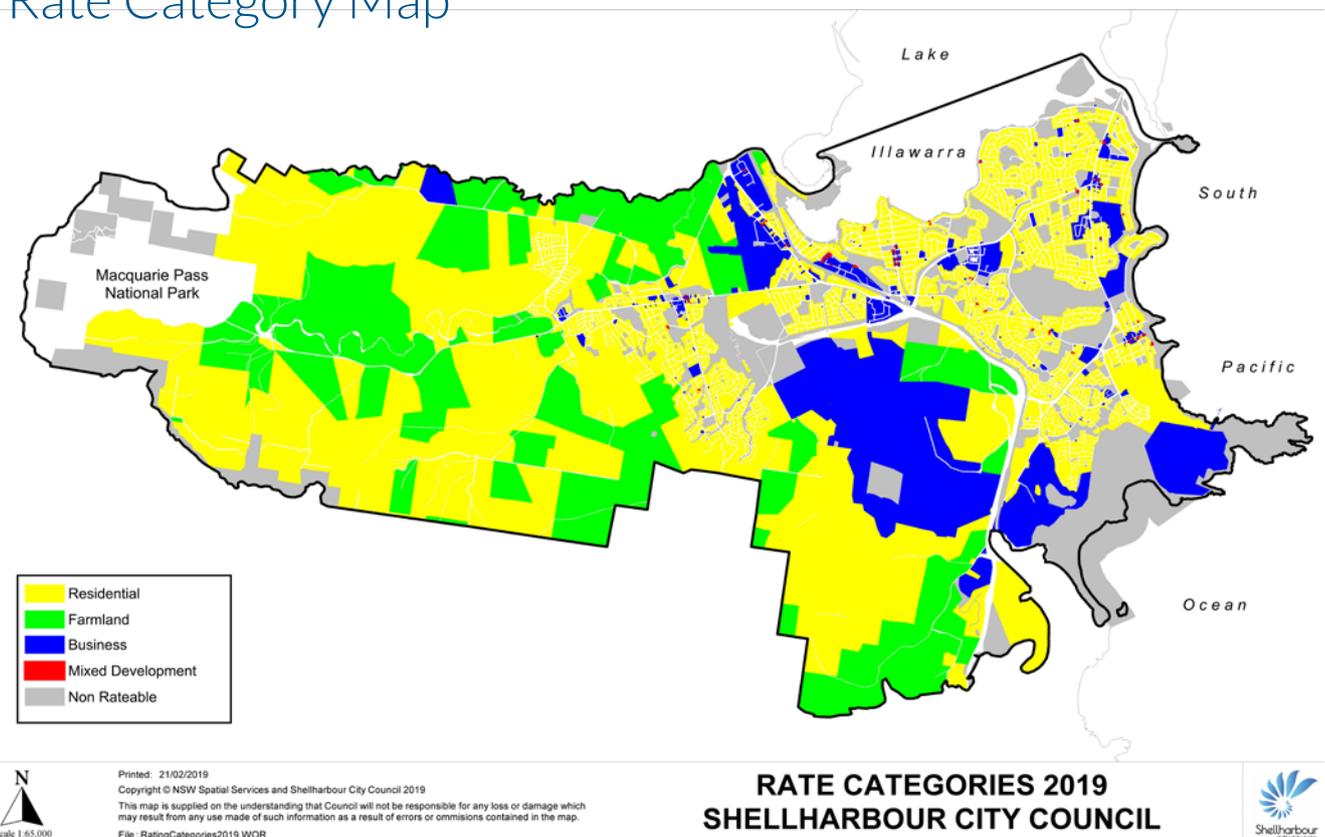

Council proposes to levy the following ordinary rates in 2019-2020.

Category	Base Rate	Ad-Valorem Amount	Yield
Residential	\$694.01	0.29635	\$42,369,571
Business	nil	1.13945	\$6,436,212
Farmland	nil	0.29746	\$258,853

The above is based on Council adopting a 2.7% increase to rates in 2019-2020. This is the current rate peg percentage to increase rates as set out by IPART.

The map below of the local government area displays where the above three rating categories apply.

## Rate Category Map

# Fees & Charges 2019 - 2020

# Pricing of Council Services and Products

## Our Objective

Council's objective is to create a framework within which transparent pricing and charging decisions can be made.

## What can we price?

Section 608 of the Local Government Act 1993 provides that Council may charge and recover an approved fee for any services it provides, including the following:

- supplying a service, product or commodity;
- giving information;
- providing a service in connection with the exercise of the Council's regulatory functions including receiving an application for approval, granting an approval, making an inspection and issuing a certificate; and
- allowing admission to any building or enclosure.

## How do we price?

The full costs of providing services/products are identified and used along with other factors to determine the pricing structure for any given service or product.

Pricing for Council's fees and charges are generally based on the "user pays" principle through the offsetting of some or all of the costs of the service provision, or in the case of commercial activities, to realise an appropriate rate of return.

The following factors have been taken into account in our pricing considerations:

- the cost of providing the service;
- community service obligations and the importance of the service to the community;
- the benefit to the community;
- the community's capacity to pay and other equity factors;
- whether the service or product is provided under commercial conditions;
- existing and potential markets; and
- prices determined by legislation.

## What is our Pricing Structure?

Council's fees and charges pricing can be classified into five categories as well as a "Not Applicable" (N/A) category.

### Statutory (Stat)

Council has no discretion in setting the prices for these services. The prices charged are prescribed by State or Federal Government regulations.

### Minimal Cost Recovery (Min)

The pricing for these services is set below the financial cost of providing the service. The fees received are expected to make a minimal contribution towards the cost provision, with the balance being met from general revenues. This balance will be greater than 50% of the overall cost to provide the service.

The principles associated with this pricing category may include the following:

- expected to benefit the community as a whole;
- benefit of service may be spread across a large number of users including unrelated third parties; and
- objective is to enable maximum access to the service, particularly keeping lower income users in mind.

### Substantial Cost Recovery (Sub)

The pricing for these services is set below the financial cost of providing the service. The fees received are expected to make a significant contribution towards the cost provision, with the balance being met from general revenues. This balance will be less than 50% of the overall cost to provide the service.

The principles associated with this pricing category will be similar to the ones identified for the Minimal Cost Recovery category, but to a lesser extent.

## Full Cost Recovery (Full)

The pricing for these services is expected to recover the full cost of providing the service, including all direct, indirect and any capital costs.

The principles associated with this pricing category may include the following:

- the user of the service obtains the full service benefit; and
- the service is not provided under commercial conditions.

## Market Pricing (Mkt)

The pricing for these services is expected to recover the full cost of providing the service along with generating an appropriate rate of return.

The principles associated with this pricing category may include the following:

- the service is provided under commercial conditions; and
- prices will be set to compete with other market competitors, but not to unfairly price others out of the market.

## Other Considerations

### Goods and Services Tax

Where a particular fee or charge is taxable, the full 10% Goods & Services Tax will be applied.

### Rates Pricing

Rates are levied on all rateable property within the Local Government area in accordance with the Act.

Section 509 of the Act limits the amount by which Council may increase total rate income in a new financial year to that percentage specified in accordance with Section 506. The only exception to this applies to a Special Variation under Section 508 or 508A.

Section 497 of the Act specifies that each category of rate may either have two components, a base amount and an ad valorem amount or it may be totally ad valorem based.

Individual property rates are set based on the land value of the property and the base rate component. Each year Council specifies two things: the percentage of total rate income to be raised by application of a base amount and the categories to which it applies; and the rate in the dollar amount to be applied to different rating categories for calculating the ad valorem amount.

## Waste Management Pricing

### Domestic Waste Management

The levying of an annual charge for a domestic waste management service is provided for by Section 496 of the Act. The charge is to be levied on all parcels of rateable land where the service is available. Where the rateable land is vacant, under development or is a multi-unit dwelling that has chosen not to utilise the Council waste service, an availability service charge will be levied in lieu of the full annual charge.

The annual charge is set to meet the full costs to Council of providing the service, including the costs of collecting the waste, the costs to dispose, process or recycle the waste and the costs to administer the service.

The annual charges also cover the cost of future major works at the Dunmore Recycling & Waste Disposal Depot and the cost of rehabilitating and maintaining the site after closure of the landfill. Income received from the annual charge is calculated so as not to exceed the reasonable cost to Council of providing the service.

Council provides the following domestic waste management collection services:

- A 80 litre mobile garbage (red lid) bin collected fortnightly;
- A 140 litre mobile garbage (red lid) bin collected fortnightly;
- A 240 litre mobile garbage (red lid) bin collected fortnightly;
- A 140 litre mobile recycling (yellow lid) bin collected fortnightly;
- A 240 litre mobile recycling (yellow lid) bin collected fortnightly;
- A 140 litre mobile FOGO (green lid) bin collected on a weekly cycle. FOGO bins collect kerbside food and garden organics;
- A 240 litre mobile FOGO (green lid) bin collected on a weekly cycle. FOGO bins collect kerbside food and garden organics.

Service adjustments will alter the pricing of the service up or down depending on the mobile bin volume chosen. A changeover fee will apply for upsizing of mobile bins. Residents that currently have two 140 litre mobile garbage (red lid) bins will be transitioned to a single 240 litre mobile garbage (red lid) bin with no changeover fee applied.

### Waste Management Services – Disputed Domestic Waste Management Charges

The annual rate notice that is issued each year in July includes details of the Domestic Waste Management charge attributed to each property, including any additional bins or services. Where the property owner

believes they are being incorrectly charged and advises Council prior to the due date for payment of the first instalment, Council will verify the rate and bin size and the charge will be amended back to 1 July for the current financial year.

Where a property owner advises Council of an anomaly in regards to the size of their general waste bin subsequent to the first instalment due date, the charge will be amended from the date that advice was received by Council.

Residents must pay their rates instalment as issued, and any amendments agreed to will be adjusted on the next instalment notice.

## Non Domestic Waste Collection Services

Councils may provide waste collection services to commercial premises and set an annual charge for such a service under Section 501 of the Act and may also levy a user pays charge under Section 502.

Shellharbour City Council offers a commercial waste management service to business and commercial premises wishing to dispose of waste. The pricing of this collection service is based upon cost recovery including operating costs, administrative overheads and provision towards the costs of major future works at the Dunmore Recycling & Waste Disposal Depot. A profit margin may be included into the pricing of non domestic waste collection services.

## Dunmore Recycling & Waste Disposal Depot

Charges for disposal of waste at the Dunmore Recycling & Waste Disposal Depot are set out in Council's Fees and Charges. Fees are prepared on the basis of market competitiveness and includes the NSW State Government Waste & Environment Levy where applicable.

## Stormwater Management Pricing

### Stormwater Management Service Charge

The levying of an annual charge for a stormwater management service charge is provided for by Section 496A of the Act. This charge will be used to partially fund the quantity and quality of stormwater that flows off land, and includes a service to manage the re-use of stormwater for any purpose.

Land eligible for the making of a charge will be all land that is rated in the residential and business categories for rating purposes, except vacant land.

Funds raised by the charge must be used to recover some or all of the costs of providing new or additional

stormwater management services to eligible land. These services may include maintenance and capital works in areas such as drainage systems, stormwater treatment measures, stormwater harvesting, and stormwater re-use projects. Funding may also be allocated to flood and water quality studies and community and industry stormwater pollution education campaigns.

This charge is not subject to rate pegging.

Residential and business assessments will each pay a charge as is determined in the Council's Fees and Charges document. Residential strata lots will pay 50% of the adopted charge for residential assessments. Business strata lots will pay on a pro-rata basis.

## Community Facilities

### Swimming Pools

Entry fees are charged to all users of the heated pool and cold fresh water pools except where patrons are attending swimming club activities where a lane/s have been booked and paid for. The remaining significant operating costs are subsidised from general revenue.

The option of a scaled recreation fee per registered club members per season has been included to assist in providing equity for all users.

### Sportsfields

Council has an obligation to provide these facilities and to ensure that there is equitable access to the facilities by all members of the local community.

#### • Playing Fields

Council's provides a scaled recreation fee per registered player per season agreed as being the most equitable for all users.

A recreation fee applies to all regular users of sportsfields excluding schools. This charge covers the seasonal use of the playing fields, with the fee discounted depending on the number of players per club. This is to assist smaller clubs.

Casual users of sportsfields are charged an hourly fee which covers both the use of the playing surface and amenities where provided.

Schools are charged an application fee and on occasion of school carnivals and gala days will be charged a facility fee.

The recreation fees will be used to assist with the costs of maintaining Council's sportsfield assets. Council will continue to heavily subsidise the sportsfield maintenance costs through general revenue.

## • Lighting

Floodlights and training lights are provided to users of sportsfields on a subsidised basis and the pricing level is set on the level of lighting emitted.

Prices are set to partly recover some costs associated with electricity and minor repairs. Prices are not set to recover the cost of major maintenance, replacement or the original capital cost. Council subsidises the use of the floodlights and training lights out of its general revenue.

Council have undertaken to work with the Clubs to assist Council with prioritising upgrade and renewal works associated with Sportsfield lighting.

## • Canteens

Canteen are provided at a number of sportsfields across the city. Revenue received will contribute partly towards the direct operating costs of the buildings, including water and electricity, the partial cost of any maintenance and structural repairs to the exterior of the building. The fee is subsidised by Council out of general revenue.

As part of reviewing the fee structures for this area, fees & charges may be included in the fee for the proposal for a licence agreement for the use of sportsfields.

## Links Shell Cove Golf and Shell Cove Tavern Facility

Council operates the Links Shell Cove Golf facility. The management strategy for this facility necessarily includes a marketing strategy and budget. This budget, comprising both revenues and expenditures, is incorporated into Council's annual budget.

The Links Shell Cove Marketing Strategy and budget, includes non-cash components commonly incorporated in budgets for this type of facility. Specifically, this programme allows for marketing incentives, prizes, inducements and goodwill generation through the use of complimentary invitations to use facilities. Complimentary golf rounds, use of carts and club facilities may be included as part of Council's strategy for building the business.

For the purposes of section 356 of the Local Government Act 1993, Council will account for all complimentary use of facilities, so that a value can be placed upon this form of promotion.

As the Shell Cove Tavern operates under a hoteliers licence (LIQH400108656) its marketing activities relating to liquor and gaming are governed by the:

- Liquor act 2007.
- Relevant licence conditions.

## Neighbourhood Centres & Community Halls

These facilities provide crucial support to community groups and ensure there is equitable access available to all members of our community.

Different pricing structures exist for the use of Neighbourhood Centres and Community Halls. This reflects Council's community service obligation and the role played by many community groups in assisting Council to meet its community objectives within our Community Strategic Plan.

## Shellharbour Village Exhibition Space

The cost of providing the use of these facilities is subsidised by Council, reflecting Council's Community Service cultural obligation and the important role artist and creative groups play in our city. Subsidised groups are charged under the community function "Non Profit" category as listed within the fees and charges document. All groups within this category are Non Profit community organisations. The use is reviewed annually. Council may limit or cap the time usage at the subsidised rates. See definition of Non Profit Organisations under Neighbourhood Centres and Community Halls.

## Senior Citizens Centres

These facilities are licensed to senior citizens groups. The licence provides that the groups will undertake minor repairs and cleaning at their own expense.

Council meets the cost for major structural repairs out of its general revenue.

## Youth Centres

These facilities are provided for the young people living in the local government area. The facilities are provided free of charge and the operating costs including staffing costs are subsidised.

## Non Profit Organisations

A Non Profit Organisation is defined as an organisation that is not carried on for the profit or gain of individual members. A Non Profit Organisation can still make a profit but these must be used to carry out the organisation's purposes, and profits must not be distributed to an individual owner or owners, members or private persons.

If further clarification as to the non profit status of an organisation is needed to ascertain the applicable pricing category within this policy, the Australian Tax Office definition will be used.

Lower pricing structures can apply to Non Profit Organisations for the hire and use of Neighbourhood Centres and Community Halls. The use by these organisations is reviewed annually and the organisations may also have individual agreements or licences. Council may also limit or cap the time usage at the lower rates.

## 14. PLANNING PROPOSALS

There are two fee options for the preparation, processing and consideration of Planning Proposals that amend Local Environmental Plan 2013. The first is when the entire application is processed in house; the second is where Council contracts out the administration and assessment of the application. The decision as to whether an application is to be processed in house or contracted out is made by the Council and is dependent upon staff workloads

### 14.1 OPTION 1 – WHEN PROCESSED BY COUNCIL

The decision as to whether a Planning Proposal is considered Minor or Major is made by Council upon review of the information submitted. Fees have been determined on a substantial cost recovery basis established from the processing of typical proposals

#### FEE FOR INITIAL INVESTIGATION AND REPORT TO COUNCIL AS TO WHETHER TO PREPARE A PLANNING PROPOSAL

A decision to prepare does not commit the Council to ultimately supporting the proposal but is for the purposes of investigation only

Minor Planning Proposal	N	\$3,480.00	\$4,176.00	20.00%	Sub
Minor is where a proposal is small scale in terms of both the land area and the range of issues to be addressed and that is likely to be generally consistent with state and regional policies, directions, circulars, other policies and surrounding land uses					
Major Planning Proposal	N	\$8,117.00	\$9,740.00	20.00%	Sub
Major is where a proposal is large scale in terms of both land area and the range of issues to be addressed and has the potential for land use conflict and/or policy inconsistencies					

#### FEE FOR THE STATUTORY PROCESSING OF THE PLAN
