Angela Chen's Resignation Letter

Dear Board of Directors,

I have accepted a job offer with Federal Government and will be a federal officer with Census of Agriculture, Statistics Canada, starting this September.

As you may recall, I obtained my doctoral degree in food studies and community development from University of Waterloo and currently I am a research manager with FoodShare Toronto, a renowned non-profit organization.

It is an honor and a privilege, as a Dundas resident and a food policy researcher, to serve on the Hamilton Farmers' Market Board. It is a pity that I did not contribute as much as I expected in this year because of my pregnancy and new born.

As I will move to Ottawa, I am sorry that I have to resign from this Board member position. I thank for your support and understanding. If there is any administrative procedure, please let me know.

Best Regards!
Angela Chen
