

Revert to Owner Agreement

To ensure there will be no interruption of service at your property, please sign this written agreement authorizing City of Palo Alto Utilities Department to automatically transfer service to your name when an order is received from one of your tenants to discontinue service.

Please be advised of the following conditions regarding this agreement:

1. This agreement confirms that all utilities charges for every unit will be the responsibility of the property owner/manager for the time periods between tenant termination of service date and new tenant establishment of service.
2. This agreement is for all meters/services that are provided by the City of Palo Alto Utilities Department at each address. There is no option to select one particular meter/service if more than one meter/service is present at the address.
3. City of Palo Alto Utilities Department reserves the right to disconnect any and all meters at an address when tenants become delinquent on their bill or have in any way interfered with normal service.
4. **In the event the properties are sold or the ownership interest in the property changes in anyway**, any request for title change and/or discontinuance of this agreement requires five (5) days prior written notification to our office for processing of said request.
