## NOAA Computer Operations Center Software Maintenance

**PURPOSE:** ComputerSoft Configuration Professional, ComputerSoft Operations Design Suite Premium, and ComputerSoft Processing Suite Ultimate software tools provide configuration management planning and tracking, data center operations design development and lifecycle management, and data processing management and control for the NOAA Computer Operations Center. The NOAA Computer Operations Center serves the data processing needs of all bureau administrative offices nationwide, supporting systems for personal management, finance, legal, and procurement.

**SCOPE OR MISSION:** Purchase renewal of ComputerSoft software subscription and maintenance to keep keys current. Brand Name Justification is included in procurement supporting documents.

**BACKGROUND:** The NOAA Computer Operations Center became operational in 2005 as a dedicated data processing facility for the bureau's administrative functions and to serve the unique needs of those processing requirements. To capture economies of scale and other processing efficiencies, the facility shares routine data warehousing operations with computer operations centers for the bureau's science operations and research line offices. After extensive product research, the bureau's IT team selected ComputerSoft software because of its industry leading performance in managing IT operations within the facility and between the enterprise data warehouse operation.

**TECHNICAL SPECIFICATIONS:**

## Item 1

Description: ComputerSoft Configuration Professional 2014 Subscription

Support Type: Software and Updates

Customer System Identification Number: 000111222333

Term of Support: 1/1/2014 – 12/31/2014

Price: \$1,000

## Item 2

Description: ComputerSoft Operations Design Suite Premium 2014 Subscription

Support Type: Software and Updates

Customer System Identification Number: 999888777666

Term of Support: 1/1/2014 – 12/31/2014

Price: \$2,000

## Item 3

Description: ComputerSoft Processing Suite Ultimate 2014 Subscription

Support Type: Software and Updates

Customer System Identification Number: 333444555666

Term of Support: 1/1/2014 – 12/31/2014  
Price: \$3,000

**DELIVERY SCHEDULE:** Request renewal date by 12/31 to allow one day key application and testing.

**SPECIAL REQUIREMENTS:** If possible, obtain pricing for contract option periods for ComputerSoft software subscription renewal and maintenance.
