

Undergraduate Sociology Research Proposal

Title Page

- **Title of the Proposal**
- **Your Name**
- **Institution and Department:** Include sociology or social sciences.
- **Advisor's Name**
- **Date of Submission**

Abstract

- Briefly summarize the sociological research problem, methods, and significance (150–300 words).

Introduction

- **Background:** Provide context on the sociological issue or phenomenon.
- **Problem Statement:** Specify the social problem or research question.
- **Significance:** Explain how the research contributes to understanding societal structures or behaviors.
- **Objectives:** Clearly define research goals.

Literature Review

- Review sociological theories and studies relevant to your topic.
- Highlight gaps or areas for further exploration.

Research Questions or Hypotheses

- Present the sociological questions your research will address.

Methodology

- **Participants or Data Sources:** Describe the target group or datasets (e.g., demographic surveys).
- **Methods:** Detail qualitative (interviews, ethnography) or quantitative (surveys, statistical analysis) methods.
- **Procedure:** Explain the steps for data collection and analysis.

Expected Outcomes

- Discuss the potential sociological insights or contributions of the research.

References

- Use ASA or another appropriate citation style.
