

## ADDENDUM to the End User License Agreement for Hexagon Software Products Including Oracle Technology

---

If User has obtained a Hexagon Software Product that references this addendum (“Addendum”), this Addendum is applicable to User. This Addendum addresses the licensing of Hexagon Software Product(s) that include certain Oracle Technology (“Oracle Technology” as defined further below). With regard to Oracle Technology, (i) this Addendum modifies the End User License Agreement or other applicable software license agreement (“EULA”) between User and Intergraph Corporation doing business as Hexagon Safety & Infrastructure (“Hexagon”) related to Oracle Technology delivered in Hexagon Software Product(s), and (ii) in the event of a conflict between the EULA and this Addendum, this Addendum shall govern specifically with regard to Oracle Technology described herein. Capitalized terms not defined herein shall have the meaning ascribed to them in the EULA. In the event of a conflict of terms between the EULA, any other EULA addendum, and this Addendum, this Addendum shall take precedence over the EULA and any other EULA addendum regarding the subject hereof. The EULA and this Addendum together constitute the “License” applicable to Software Product(s) with Oracle Technology.

“Oracle Technology” is defined as any Oracle programs obtained by Hexagon subject to an Oracle Technology Network License Agreement and redistributed in the Software Product that references this Addendum. Hexagon provides Oracle Technology subject to a restricted license and licenses it to User strictly for User’s internal use with such Software Product, and strictly in accordance with this Addendum.

User may not:

- Remove or modify Oracle Technology markings or any notice of Oracle’s or a licensor’s proprietary rights;
- Use Oracle Technology to provide third party training unless Oracle expressly authorizes such use on Oracle’s download page for the particular Oracle program;
- Assign this Addendum or distribute, give, or transfer Oracle Technology or an interest in Oracle Technology to any third party;
- Cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of Oracle Technology; and
- Disclose results of any Oracle Technology benchmark tests without Oracle’s prior consent.

All rights not expressly granted in this Addendum are reserved by Oracle. If User wants to use Oracle Technology or Oracle Technology documentation for any purpose other than as expressly permitted under this Addendum, User must obtain from Oracle or an Oracle reseller a valid license under a separate agreement permitting such use. However, User acknowledges that Oracle Technology may not be intended for production use and/or Oracle may not make a version of Oracle Technology available for production or other purposes. Any development or other work User undertakes with Oracle Technology is at User’s sole risk.

Oracle or its licensors retain all ownership and intellectual property rights to Oracle Technology.

Export laws and regulations of the United States and any other relevant local export laws and regulations apply to Oracle Technology. User agrees that such export laws govern User’s use of Oracle Technology (including technical data) and any services deliverables provided under this Addendum, and User agrees to comply with all such export laws and regulations (including “deemed export” and “deemed re-export” regulations). User agrees that no data, information, program and/or materials resulting from Oracle Technology or services (or direct products thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology. Accordingly, User confirms:

- User will not download, provide, make available or otherwise export or re-export Oracle Technology, directly or indirectly, to countries prohibited by applicable laws and regulations nor to citizens, nationals or residents of those countries.

- User is not listed on the United States Department of Treasury lists of Specially Designated Nationals and Blocked Persons, Specially Designated Terrorists, and Specially Designated Narcotic Traffickers, nor is User listed on the United States Department of Commerce Table of Denial Orders.
- User will not download or otherwise export or re-export Oracle Technology, directly or indirectly, to persons on the above-mentioned lists.
- User will not use Oracle Technology for, and will not allow Oracle Technology to be used for, any purposes prohibited by applicable law, including, without limitation, for the development, design, manufacture or production of nuclear, chemical or biological weapons of mass destruction.

ORACLE TECHNOLOGY IS PROVIDED “AS IS” WITHOUT WARRANTY OF ANY KIND. ORACLE FURTHER DISCLAIMS ALL WARRANTIES, EXPRESS AND IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT.

IN NO EVENT WILL ORACLE BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, OR DAMAGES FOR LOSS OF PROFITS, REVENUE, DATA OR DATA USE, INCURRED BY USER OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, EVEN IF ORACLE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ORACLE’S ENTIRE LIABILITY FOR DAMAGES UNDER THIS ADDENDUM SHALL IN NO EVENT EXCEED ONE THOUSAND DOLLARS (U.S. \$1,000).

Unless Oracle support for Oracle Technology, if any, is expressly included in a separate, current support between User and Oracle, Oracle’s technical support organization will not provide technical support, phone support, or updates to User for Oracle Technology provided under this Addendum.

Hexagon may audit User’s use of Oracle Technology. User may terminate the License by destroying all copies of Oracle Technology. The License shall automatically terminate without notice if User fails to comply with any of the terms of the License, in which case User shall promptly destroy all copies of Oracle Technology.

Oracle is an independent contractor and User and Oracle agree that no partnership, joint venture, or agency relationship exists between User and Oracle. User and Oracle shall each be responsible for paying their own employees, including employment related taxes and insurance. Nothing in this Addendum shall be construed to limit User’s or Oracle’s right to independently develop or distribute software that is functionally similar to User’s or Oracle’s products, so long as proprietary information of the other party is not included in such software.

Oracle Technology and/or Oracle Technology documentation delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of Oracle Technology and/or Oracle Technology documentation shall be subject to the license terms and license restrictions set forth in this Addendum. No other rights are granted to the U.S. Government.

User shall have no right to distribute Oracle Technology or Oracle Technology documentation.

Oracle is a third party beneficiary of this Addendum.
