

SKC Student Housing Roommate Agreement

The Roommate Agreement is an informal document intended to clarify expectations and respectful boundaries between roommates living in SKC Student Housing. Students should meet with all of their roommates to set the terms of the Agreement together. If conflict arises, they should refer to the Agreement they set together.

Students may keep this document for their own records, or they may bring the Agreement to the Housing Office to be kept with their Housing records. Drafting an Agreement is NOT required to live in SKC Housing.
