
Graduate School Research Interest Statement

1. Introduction

Introduce yourself and explain why you are pursuing graduate studies in your chosen field.

Example:

"As a recent graduate of [undergraduate program], I am excited to deepen my knowledge of [field] through graduate studies. My passion for [specific area] stems from [experience]."

2. Research Background

Summarize your undergraduate research, projects, or work experience relevant to your intended field of study.

Example:

"My undergraduate thesis focused on [specific topic], where I employed [methods] to [achieve specific outcome]. This experience solidified my interest in [specific field]."

3. Current Research Interests

Describe your research interests and how they align with the graduate program's focus or faculty expertise.

Example:

"I am particularly drawn to [specific area of research] and its potential to address [specific challenge]. [Program/professor]'s work in [specific area] closely aligns with my interests."

4. Future Goals

Discuss your aspirations for graduate school and beyond.

Example:

"My goal is to gain advanced expertise in [specific field] and contribute to [field's] growth through research and collaboration."

5. Closing Statement

End with a statement of enthusiasm for joining the program.

Example:

"I am excited about the opportunity to join [graduate program] and to contribute to its vibrant research community."
