

***STOP the Bio-terror lab Coalition  
Endorsement Statement***

Written, June 2004

We, a coalition of concerned residents, community and advocacy groups, elected officials, scientist, and business owners, do not support the construction of Boston University's BSL4 Bio-terror lab.

The potential health and safety risks are a threat to the quality of life and affordability of the surrounding neighborhoods. In addition, construction of the lab will result in a loss of jobs and other benefits for the local community. And there is no public oversight in place for the laboratory.

By signing below you are taking a step towards supporting the **PROHIBITION** of the research designated as Bio-safety Level 4 (BSL4) in the city of Boston.
