YOUR SPRAY SOLUTION

PRICE LIST FOR MEASUREMENTS

Update January 2020

OUR EXTENSIVE OFFER AND A FEW NUMBERS FOR FIRST ORIENTATION

Measurements

Volume/mass flow

Measurement of volume or mass flow as a function of the operating pressure of the nozzle. Display as diagram.

Droplet size (PDA)

Droplet size and velocity measurement with the Phase Doppler Anemometer (PDA).

Droplet size (Shadow)

Droplet size and velocity measurement by means of Shadow-sizing principle.

Impact

High-resolution measurement of the local pressure distribution of a spray.

Visual representations

Volume distribution

Visualization of the spatial volume distribution of a spray.

3D volume distribution

Visualization of the spatial volume distribution of a spray as a 3D representation.

Photo

Photographic recording of the spray and the spraying situation.

Video

Videos of spray and spraying situation.

Spray Lab

You need our whole laboratory for the clarification of your question.

Measurement

Pressure vs. flow rate	from 390,00 €
Droplet size (PDA)	from 490,00 €
Droplet size (Shadow)	from 490,00 €
Impact (High pressure)	from 450,00 €
Impact (Low pressure)	from 190,00 €

Visual representations

Volume distribution	from 190,00 €
3D volume distribution	from 360,00 €
Photos	from 170,00 €
Videos	from 170,00 €

Spray Lab

On request!

Talk to us

You want to know it exactly? Then you are in the right place with us. We are happy to advise you and look forward to your call at **Phone +49 7123 962-0**. Or simply send an e-mail to **info@lechler.de**
