### Description of Requirements

Context of the Requirement	<p>As part of the overall UN reform process, the Delivering as One (DaO) in Rwanda was launched at the beginning of 2007 with the broad objective to improve the UN's impact, coherence and efficiency. The first year (2007) was a year of preparation of the four pillars that are central to the Delivering as One initiative, namely: One Programme, One Budgetary Framework, One Leader &amp; One Voice, and One Office. The United Nations Development Assistance Framework (UNDAF) 2008-2012 as well as the Common Operational Document (COD) was developed as central piece for the Delivering as One.</p> <p>In Rwanda's context, the Delivering as One is strongly built on the principles of national ownership and leadership and aims at enhancing effectiveness, efficiency, and relevance of the UN in support of national development and poverty reduction efforts. The Delivering as One also aims to reduce transaction costs for Governments as well as decreasing overhead costs for the UN system and its partners.</p> <p>Various evaluations of the DaO in Rwanda such as the Country-led Evaluation and a comprehensive Comparative Advantage and Stakeholders Analysis (referred to as the Focus Study) have yielded anecdotal evidence of gaps in the UN communication activities and strategies.</p> <p>Communicating as One will improve the efficiency and effectiveness of common messages and communication products; by pooling expertise and resources. It will also play an important role in building support for the successful implementation of Delivering as One with external partners and UN staff.</p> <p>The UN Communications Group is mandated to implement the UN Communications Strategy.</p> <p>Pursuant to this, the UN Communications Group is seeking services of a professional web-hosting company to implement a relevant part of the One UN Communications Strategy.</p>
