Measles, Mumps, Rubella							MMR1					MMR2	
Japanese Encephalitis ¹								JE1			JE2		
Hepatitis A ²							HepA1		HepA2				
Influenza						Influenza (yearly)							

1. The mouse brain-derived vaccine was replaced by the Vero cell-derived Japanese encephalitis vaccine in May 2017.
2. In January 2018, hepatitis A vaccine was introduced into routine immunization program for children born after January 2017. The original hepatitis A vaccine program for children registered in selected indigenous areas has been implemented continuously. **In April 2019, hepatitis A vaccine program was expanded to children under 13 years of age from low-income and middle-to-low-income households.**
