# High School Informative Speech Outline

## Introduction

- **Attention Getter:** "Did you know that students who participate in extracurricular activities have higher academic performance?"
- **Purpose Statement:** To inform the audience about the benefits of extracurricular activities for high school students.
- **Relevance to Audience:** These activities shape your skills, college applications, and personal growth.
- **Thesis Statement:** Extracurricular activities promote personal development, improve academic success, and enhance social skills.
- **Preview:** Today, we'll discuss how extracurriculars impact personal growth, academics, and social interactions.

## Body

- **Point 1: Personal Development**
  - **Explanation:** Activities like sports, arts, and clubs foster self-confidence and discipline.
  - **Supporting Evidence:** Studies show that students who engage in such activities develop leadership and teamwork skills.
  - **Transition:** Now, let's explore how these activities affect academic performance.
- **Point 2: Academic Success**
  - **Explanation:** Involvement in clubs and teams often correlates with better grades and time management.

- **Supporting Evidence:** Statistics indicate that active students have a 20% higher GPA than their inactive peers.
- **Transition:** Finally, we'll examine the social benefits of extracurricular participation.
- **Point 3: Enhanced Social Skills**
  - **Explanation:** These activities encourage communication and networking.
  - **Supporting Evidence:** Students report improved friendships and higher self-esteem when involved in group activities.

## Conclusion

- **Restate Thesis:** Extracurricular activities aid personal growth, academic improvement, and social development.
- **Summary of Main Points:** We explored personal development, academic success, and social skills.
- **Closing Statement:** "So, next time you have a chance to join an activity, remember—it's not just for fun; it's for your future."
