CPPCLO4022 Schedule and monitor cleaning tasks

Release: 1

CPPCLO4022 Schedule and monitor cleaning tasks

Modification History

Release 1.

Revised unit of competency replacing superseded equivalent CPCCL04022A Organise and monitor cleaning operations.

This version first released with CPP Property Services Training Package Version 4.

Application

This unit of competency specifies the outcomes required to schedule and allocate staff to cleaning tasks to meet contracted service level agreements. It covers monitoring the efficiency and quality of the work through cleaning audits, preparing audit reports, and applying the information to ensure staff effectiveness for a cleaning contract. The unit involves interpreting client work orders, and applying knowledge of staff skills and availability and the range of cleaning methods available and required for the contract.

The unit supports cleaning supervisory staff with responsibility for supporting a small team and ensuring work targets are met. It applies in a range of commercial and residential work sites.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-requisite Unit

Nil

Unit Sector

Cleaning operations

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.

- | | |
|--------------------------------------|---|
| 1. Determine work site requirements. | 1.1. <i>Work site areas</i> to be cleaned are assessed, and scope of cleaning work is clarified with client or nominated representative. |
| | 1.2. Detailed client needs and expectations for cleaning different areas of work site are determined and recorded |

- according to company requirements.
- 1.3. Special requirements arising from site characteristics or client requests are identified according to company and **health and safety requirements**.
 - 1.4. Client's reporting requirements are clarified and reporting format negotiated and developed according to company requirements.
2. Analyse resource requirements of required cleaning tasks and provide resources.
 - 2.1. Shift arrangements, number of cleaners, and specific skill levels required to meet client needs are determined.
 - 2.2. Numbers, skills and availability of cleaners are analysed to identify shortfalls and recruitment procedures are initiated according to company procedures.
 - 2.3. Work schedules are developed and suitably qualified cleaners are assigned to shifts and work site cleaning areas according to health and safety and company requirements.
 - 2.4. Human resource requirements and staff schedules are assessed or reorganised according to company procedures when contingencies and special requests from clients arise.
3. Communicate and monitor work requirements.
 - 3.1. Cleaning team members are advised of **work requirements** according to company requirements.
 - 3.2. Cleaning schedule checklists are prepared and displayed at work site as required, and cleaning team is briefed using checklists.
 - 3.3. Work site audit schedule and checklist are prepared according to client needs and company procedures.
 - 3.4. Work team members' understanding of their tasks and responsibilities is confirmed according to company requirements.
 - 3.5. Regular work site audits are conducted to ensure compliance with customer needs, cleaners' performance is monitored, and adjustments to work practices are made according to company requirements.
 - 3.6. Restrictions affecting completion of work or changes in client needs are identified and work schedules are adjusted according to company requirements.

- 3.7. Client reports are prepared and processed according to agreed procedures.

Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

Skill	Performance feature
Learning skills to:	<ul style="list-style-type: none"> draw on prior knowledge of cleaning work and work sites to assess scope of work.
Numeracy skills to:	<ul style="list-style-type: none"> calculate human resource requirements from estimated hours of work required per day, health and safety requirements, and cleaners' availability.
