

Urology Rotation Schedule 2020-2021

- Urology Resident Rotations are based largely on two-month blocks.
- Each Faculty has an area of Urology sub-specialization. These are shown in first column. The mentor-based model of training means one trainee per service/faculty.
- Residents are provided specific surgical + clinical objectives for each rotation.
- Please note the Uro1's are assigned to General Surgery for the first 6 months. Rotations include Renal Transplant, Uro-Gynecology and Plastic Surgery.
- The Chief Resident year is unique.
 - Each two-month block remains under the supervision of one faculty. In 2016-17 the program innovated a **Transition to Practice Curriculum**. This places one Chief in his/her own outpatient clinic for patient visits, cystoscopy, and prostate biopsies -- three afternoons each week (Tuesday, Wednesday, Thursday). On Mondays and Fridays as well as every morning the Chiefs identify surgical cases they will staff along with junior residents.
 - **The Transition to Practice** is a highlight of the MCF Program. The three features are: mastering independent practice, maximizing case experience and development as a Teaching Surgeon.

2020-2021 Urology Block Schedule												
	Summer Quarter (2020)			Fall Quarter (2020)			Winter Quarter (2020/21)			Spring Quarter (2021)
