

HEARTFELT CONDOLENCE AND DEEP SYMPATHY

Dear friends and families in Japan,

We, *Pax Earth Nepal*, are deeply shocked and saddened by the massive earthquake that triggered a huge tsunami in Japan on last Friday which killed thousands, stranded tens of thousands, injured several hundreds of thousands, and left hundreds of thousands homeless. The loss of lives, properties and infrastructures is out of imagination. There is still a fear of tens of thousands dead. The tsunami swept away everything in its path including cars, ships, trains, planes, houses, roads, and fields along the country's northeastern coast. We have heard that the life has become very hard in Japan due to aftershocks after aftershocks, fears of possible radioactive contamination, shortage of power, water and gas supply. We are really very worry.

We extend our deep and heartfelt condolence to those who lost their lives and pay deep sympathy to those who were injured and abandoned in these catastrophes. We pray to almighty for the eternal peace of departed souls and speedy recovery of those injured. May the rescue and relief teams succeed in rescuing a large number of survivals. May almighty give enough courage and strength to all families and friends in Japan to overcome this hard time together.

Japan has always been praised as a nation anytime prepared for helping other countries in the need of emergency and difficulty. Though we are miles away, we are joined by our families and friends and share the moments of grief and sadness together with you all. We stand by the friends and families of Japan as you all overcome this greatest crisis and situation returns to normal.

It may not possible for Pax Earth Nepal to involve in the rescue and relief efforts directly. We are hopeful that Pax Earth Japan and Pax IV Hyper will play an exemplary role in extending hands in the country's relief and rescue efforts. We are ready to extend all possible support and cooperation in your efforts.

We send our prayers to wonderful Japanese people.
