

Leadership Team Mission Statement

The mission of the facilities leadership team is to; build trust and respect internally within the facilities department and externally in the college community and the greater communities; provide support, enable, and empower facilities staff to accomplish their work; collaborate with the college community to assess changing needs to ensure the finest academic, living, and working environment possible; exercise excellence in stewardship practices by continuously monitoring facilities and landscape conditions while providing seamless proactive maintenance and capital planning program support; and finally provide responsible management of the college's physical, financial, and natural resources.

Internally, the facilities leadership team strives to provide recruitment of the most talented and experienced facilities staff and enables continuous development of staff. Services provided for the campus include facilities operation and maintenance management; major project construction management; and annual capital renewal & replacement, capital improvement and sustainability improvement projects initiation coordination, planning and implementation. The facilities leadership team provides services related to campus master planning and sort and long term capital funding requirements planning.
