1 Introduction

1.1 Overview

The Town of Westbrook ("the Town"), is seeking proposals to replace two existing access control systems with a single network (internet) communications-based access control system that would control a total of 14 doors located in 4 buildings. The purpose of this Request for Proposal (RFP) is to provide the Town with the materials, labor and software to allow the 14 doors to be controlled from two distinct locations.

The Town of Westbrook currently has a **Simplex** access control system which operates the exterior doors at the Mulvey Municipal Center, located at 866 Boston Post Road, Westbrook, Ct. The Westbrook Fire Department, located at 18 South Main Street, Westbrook, Ct. has a **Keri** access control system that operates exterior doors at three buildings, two building having exterior doors and one building with exterior doors and one interior door. The Town recognizes that the two systems in use need to be upgraded/replaced with newly available technology even though the current hardware is in working condition. This RFP includes the addition of two exterior doors and the hardware for the doors which are not included in the current environment. The Town understands that the potential exists that readers may need to be replaced and/or added.

This RFP does not obligate the town to award a contract or complete the project and the Town of Westbrook, CT reserves the right to cancel the solicitation if it is considered to be in its best interest.

As the town has not enlisted the services of a professional consultant to assist with the development of these specifications and as the town does not employ any professionals, dealing with this particular subject matter on its staff, the town therefore does not guarantee the total accuracy of these specifications, nor that the total system as intended has been absolutely and definitively described to the last detail. Because of this limitation, should a bidder find any material discrepancy, deficiency, or omission from these specifications, or should any doubt arise as to the content or meaning, or should further general clarification be desirable from a system quality and operational standpoint, the bidder should submit a written request, (fax is acceptable), to the address listed herein for the receipt of bids, so that a written addendum may be issued to all prospective bidders.

Additionally, we are inviting bidders to propose options that provide for cost savings and value engineering. Bidders should include the cost estimate(s) for Alternate Bids on the Bid Sheets, in the spaces allocated, and provide a short description of the experience and any fabrication approach. Submission of Alternate Bids is optional.

1.2 Walk Through

A walk through will start at the Selectman's Office in the Mulvey Municipal Building, 866 Boston Post Road, Westbrook CT at 10:00 a.m. on Tuesday, February 26, 2019. All those that are interested in providing the Town a Proposal will be able to see all four buildings and the locations of the doors, current panels, computers, additional doors and proposed location of other equipment.

1.3 About Westbrook, CT

The Town of Westbrook, in Middlesex County, is located in southern Connecticut is a quaint shoreline community nestled on the banks of Long Island Sound between New Haven and New London. We celebrate a history that began as Westbrook was incorporated as a town in 1840. Timber from local white oak and chestnut forests sustained a shipbuilding industry that flourished for nearly a century. The most famous vessel associated with the town of Westbrook is the *Turtle*, the world's first submarine, invented by Westbrook-native David Bushnell. By the 1870s, the area had become a popular summer resort town—a characteristic it still retains today.

The population as of the last (2010) census was Listed as 6,938 people, but with new housing developments, continued economic development and one of the best school districts in the state of Connecticut, it continues to be a growing community in the area.

The town's organization structure consists of a town government that includes a First Selectman along with two Board of Selectmen officials and a six-member Board of Finance.
