MANAGER'S COMMENTS

MARKET OVERVIEW

Asia ex Japan equities lost value in March amid concerns over trade sanctions between the US and China. The prospect of a regulatory backlash for major technology firms also weighed on sentiment of the market. China and Hong Kong both posted negative returns on the wider trade concerns. Indian equities lagged as the ruling Bharatiya Janata Party (BJP) lost in two by-elections. The smaller markets of the Philippines and Indonesia were the weakest index countries.

In fixed income, Asian credit was largely flat as risk sentiment was dampened by trade tensions concerns, sending credit spreads wider. A 25bps hike from the Fed as widely expected by the markets, failed to provide support for the US dollar. The US Federal Reserve (Fed) continued to project three hikes this year, while forecasting a steeper path of increase in 2019 and 2020. In a reversal of last month's trend, the Asian investment grade sector rose and outperformed high yield as base yields moved lower. Asian local currency bonds rose on the back of the resumed US dollar weakness.

Over the month, the Singapore dollar rose by +1.0% against the US dollar.
