Announcement of
Request for Proposals:
Non-Profit Housing Corporation
Property Acquisition and Renovation
Fiscal Year 2011-12

Summary of Project

The Lanterman Act, as interpreted by the California Supreme Court in *ARC-CA vs. DDS*, determined that a primary function of regional centers is to “prevent or minimize the institutionalization of developmentally disabled persons”. To this end, the Southern California Integrated Health and Living Project (SCIHLP), in conjunction with Westside Regional Center (WRC), will use Community Placement Plan (CPP) funds to acquire and develop permanent, accessible homes in the community, owned by non-profit housing corporations, for the use of individuals at risk of, or currently residing in, state developmental centers. SCIHLP and WRC are seeking proposals for the acquisition and renovation of one (1) single family home, which will be available with long-term leases for residential service providers selected and vendored by WRC. The applicant may apply for grants for both the acquisition and renovation in a single proposal. Grant funds to acquire the home will be for a total of one (1) property. Grant funding for renovating the home is available for modifications required to meet the support needs of the individuals referred, and to meet the licensing standards that will apply to the residents referred. To ensure that homes developed using CPP funds are always available for use by individuals served by Westside Regional Center, real estate deed restriction or restrictive covenants are required for each property purchased with these funds by the NPO. These deed restrictions or restrictive covenants must place specific limitations on the use of the property.

Interested parties are invited to submit a proposal in accordance with the specifications contained in this Request for Proposal (RFP) to acquire and

renovate one (1) single family property for long-term lease to a service provider supporting individuals with developmental disabilities. Applicants will also be responsible for the long term management of the property.

The successful applicant for this award will acquire and renovate one (1) single family home property to be purchased and renovated to WRC specifications and will be owned and maintained by an NPO for restricted use as housing for individuals served by WRC. The successful bidder must be a Non-Profit Housing Organization, or have that as a component of their organization that does not provide direct services to any individuals with developmental disabilities.

Deed restrictions must specify the properties will be held, and available for services to persons referred by SCIHLP and WRC, for a minimum of fifty-five years from the date of purchase per the housing guidelines issued by the State of California, Department of Developmental Services (see **EXHIBIT A**). NPO's may hold the properties as a non-profit corporation, limited partnership, or a limited liability corporation. Renovation of the property must be supervised by, and is the responsibility of, the NPO. Renovation plans must be developed for the NPO by a licensed architect and implemented by a licensed, bonded contractor, and the plans approved by WRC prior to an application for construction permits. The property will be leased to a residential service provider who will provide care and supervision to the residents. The selected residential service provider as well as regional center staff will be available to the NPO/architect/building contractor for development team meetings and technical assistance regarding the needs of the individuals referred as well as the requirements of Community Care Licensing. Property must be convertible to meet the standards for licensing by the Department of Social Service of the State of California, Community Care Licensing Division, as and Adult Residential Facility for Persons with Special Health Care Needs (ARFPSHN) for ambulatory and non-ambulatory residents. **Property ownership and management will be separate and distinct from the provision of services and supports.** The property acquired must be a single family home for no more than five adults per home. The home will be designed with a minimum of five (5) single occupancy bedrooms. **The property must be approved by WRC in advance of purchase and located within the WRC catchment area as indicated in EXHIBIT B (attached).**

Additional specifications for the prospective property is provided below:

Property features:

- Private bedroom for each resident (no more than five residents)
- A den or second common area preferred
