Dist 16: Carly Bean
Dist 17: Marcy Craig - Council Treasurer
Dist 18:

MGH:
MPD: Dr. Hoffman
Program Assistant: Tamara Hoffman
Training Chair: Greg Yates
Training Coordinator: Carissa Haber

I. April minutes approved

II. Old Business

- A. EMT course:
 - 1. Most everyone has passed the EMT course
 - 2. A list of students who did not pass OR have not taken the NREMT OR have not created an account was compiled. 7 students were on this list and their status was discussed

III. New business

- A. Narcan course: all rosters entered into Target Solutions
- B. BLS Evaluator and Supraglottic Airway rosters also on Target

. C. EMS Evaluator:

- 1. Terry Anderson stated there is now someone at the State level to work on EMS certs specifically.

2. There was some discussion on background checks for the EMT course and that there might be some delay from the State in issuing certifications as the State conducts background checks as well.

E. Narcan Training:

1. Dr. Hoffman still requesting training rosters from ALL districts with completed Narcan training.

F. Learning Management System (LMS):

1. Neurology module is “supposedly” offline (Per Tamara), as some of the questions are not submitting and so we are working to rectify this.
2. Chief Clint Volk asked about issues and how the administrative end was handling this, as it is believed to be a Target Solutions issue, still working on solutions for this

G. Mason County Program Assistant:

1. Discussion about this position not getting adequate funding for the man hours the job requires.
2. Discussion to continue conversation in Council and discuss the requirements and funding as well as the logistics of an EMS Office in the County (is it feasible)?

H. Training Funds:

1. Carissa has currently spent around \$500 on training supplies and organization for training room and intends to spend the remainder before the end of June.
