Professional Printed Plastic Cards at ID Card Group

Contact an ID Expert to Order your Custom-Printed PVC Cards Today!

Easily customize your PVC or plastic cards using ID Card Group's custom card printing services. With a minimum order of 500 cards, our card printing services fit into any budget!

Customize Your PVC Cards in 4 Easy Steps

1. **Choose your plastic card type**—We can make almost any style of plastic card from ID badges and access cards to membership and loyalty cards to promotional luggage tags and more!
2. **Create your own artwork**—Use *your own* artwork. Don't have camera-ready artwork? Download a template from our website (<http://www.idcardgroup.com/pvc/custom>).
3. **Pick your custom card options**—Once your artwork is set, choose your print style, card stock, encoding and security options by contacting an ID Expert at **877-868-0012**.
4. **Enjoy a quick turnaround**—Most orders are completed within three weeks of receiving your approved design proof and payment.

Call for a Quote Today—An ID Expert is ready to help. Call **877-868-0012** or email sales@idcardgroup.com for more information.

Still have questions?

Our **Frequently Asked Questions** section may help (below).

Frequently Asked Questions

What kind of card printing can you do?

Using state-of-the-art card printing machines, we can produce nearly any type of plastic card print including:

- Full color front and back
- Full color front and black back
- One color front and one color back
- Full bleed (full color only)

What card sizes and thicknesses are available?

We print standard credit-card sized cards, also known as CR80 cards, with dimensions of 3.375" x 2.125". Our cards are 30mil thick, which is the thickness of a standard credit card.

What card stock is available?

We have two blank plastic card stock choices including:

- 100% PVC card stock—The most common type of card stock which is also the least expensive, PVC card stock is available in plain white or in a rainbow of colors.
- Composite card stock—A PVC/PET blend that is more durable than standard PVC cards

This stock includes cards with magnetic stripes and signature panels.

Can you encode my cards too?

We can usually encode your cards with bar coding or magnetic stripe encoding. Encoding/printing data must be provided in an Excel spreadsheet with column titles in first row. Call an ID Expert at **877-868-0012** to find out if we can encode your cards.

Do you offer specialty card printing and encoding?

We offer specialty printing options such as magnetic stripe cards, cards with a signature panel, sequential numbers or barcodes printed on your cards, sequential number encoding, and more.

What kind of card security can I add to my cards?

We can add overlays and holograms to your cards which provide an extra layer of anti-fraud, anti-forgery protection.

How long will it take to get my custom printed cards?

Once we have approved, print-ready artwork and receive payment, orders usually ship in 2-3 weeks.

What type of artwork do I need to provide?

Your artwork must be print-ready in CMYK color mode, at 300 dpi. Acceptable file types include:

- .psd (Adobe Photoshop)
- .pdf (Adobe PDF)
- .jpg
- .tiff

What is your minimum order?

Custom printed cards are available in quantities from 500 to millions of units.

What are your set-up fees?

There is no setup fee required for custom cards--our prices are all-inclusive.

Do you have any templates available?

If you are preparing your card design in Adobe Photoshop, download a template from: <http://www.idcardgroup.com/pvc/custom> (links are near the page bottom), or contact ID Expert at **877-868-0012** or **sales@idcardgroup.com**. We can send you a landscape or portrait card design layout template. Note: these templates work with Photoshop CS2 and are set up for CMYK color spectrum.
