Section Two - Specific Conditions and Instructions to this Proposal

A. Scope of Work:

The City of Iowa City is seeking qualified vendors to implement and provide an enterprise software solution for asset management, maintenance management, and service request management. The system shall have the capability to integrate with ESRI ArcGIS and be capable of being deployed on a mobile platform as a stand-alone application not a web portal (i.e. iOS App for an iPad).

The City of Iowa City currently utilizes ESRI ArcGIS software. The City is seeking an enterprise asset management system that is, or is capable of being, GIS-centric, in which GIS is the registry for the asset database, thereby eliminating the need to duplicate data in additional tables and minimizing the time and expense of transferring data. The City currently has an enterprise license agreement with ESRI and leverages its data in ArcGIS Enterprise with data hosted in ArcGIS Portal in a SQL Server environment.

Responding suppliers should have successful experience with implementation in similar-sized municipal agencies as well as larger agencies with similar requirements including but not limited to streets and transportation, sidewalks, curb and gutter, street signs, street lights, traffic signals, storm water system management, fleet and facility operations, street sweeping and water and sanitary sewer. **The City does not provide electric or gas utility services.** The system should be scalable to accommodate future needs of the City. The RFP will be a full system implementation for the City beginning (Year 1) with water and signs which currently reside in legacy Cartegraph software. Future asset applications may include but are not limited to the following:

- Street Light Fixtures/ Traffic Signals
- Markings
- Pavement/Streets
- Address Management
- Trees
- Sanitary sewer system apps including cleanouts, facilities, force mains, laterals, mains, manholes, pumps
- Storm water system apps including basins, channels, culverts, facilities, inlets, manholes, outlets, pipes, pumps
- Parks and landscape areas
- Sidewalk and Bike path inventory replacement
- Parking lots and/or spaces
- City fiber

The City is seeking a supplier to provide recommendations and consultation on the best approach to phase the project based on previous deployments with other jurisdictions.

While this RFP has specific requirements, the City is open to accepting bids from software vendors that will meet the needs of the City outside of the traditional enterprise asset management environment.

B. Background:

The City of Iowa City is approaching the stage in the normal lifecycle of a city in which the public infrastructure that was constructed 40 to 60 years ago. Public infrastructure may need replacement or extensive maintenance to extend the life of the facilities and to prevent unexpected failures. The current asset inventory of structures is overseen by the various departments. Asset inventory is not centralized and some of the inventory is not fully authenticated with specifications such as, material types, dates constructed, condition, and useful life. Asset information is contained in multiple locations. Depending on the division, asset inventory, maintenance activities and workflows are managed with a combination of tools such as GIS, Cartegraph asset management software (water and signs), Cues Granite, Excel spreadsheets, an Access database, Microsoft word, and various other tools. Many of the current processes, workflows and asset information are dependent upon individual's knowledge, rather than database knowledge.

- Failure to submit a price increase request at least 45-days prior to end of the contract term shall result in a continuation of all existing pricing on the contract until the next contract term.
- The City may exempt these requirements for extraordinary conditions that could not have been known by either party at the time of proposal or for other circumstances beyond the control of both parties, in the opinion of the City.
- Requests that reduce pricing charged to the City may be delivered to the Purchasing Coordinator at any time during the contract term. Such price reductions should use the same pricing structure as the original. The City may likewise initiate a request to the vendor for price reductions, subject to mutual agreement of the vendor.

All documents submitted in response to this Request for Proposal may be regarded as public records and may be subject to disclosure. Protection from disclosure may apply to those elements in each submittal which are marked as “Trade Secret”, “Confidential”, or “Proprietary”. During the course of the submittal evaluation process or the course of the project, City of Iowa City will accept materials clearly and prominently labeled “Trade Secret”, “Confidential”, or “Proprietary” by the respondent or other submitting party. The City of Iowa City will not advise as to the nature of the content of the documents entitled to protection to disclosure, or as to the definition of trade secret, confidential, or proprietary information. The respondent or other submitting party will be solely responsible for all such determinations made by it, and for clearly and prominently marking each and every page or sheet of materials with “Trade Secret”, “Confidential”, or “Proprietary” as it determines to be appropriate. Respondents which indiscriminately so identify all or most of their submittal as protected from disclosure without justification may be deemed non-responsive.

The City of Iowa City will endeavor to advise the Respondent of any request for the disclosure of the material so marked with “Trade Secret”, “Confidential”, or “Proprietary”, and give the proposer or other submitting party the opportunity to seek a court order to protect such materials from disclosure. If a party other than the proposer submitted the requested material, the proposer shall be solely responsible for notifying the submitting party of the request. The City’s sole responsibility is to notify the proposer of the request for disclosure, and the City of Iowa City shall not be liable for any damages resulting out of such disclosure, whether such disclosure is deemed required by law, by an order of court or administrative agency, or occurs through

inadvertence, mistake, negligence on the part of the City of Iowa City or their officers, employees, consultants, or subconsultants.

8. Multiple Proposals. Proposers may submit more than one proposal, provided the additional proposal or proposals are properly submitted on the proposal forms or in the proposal format.
9. Competency of Proposer. No proposal may be accepted from or contract awarded to any person, firm or corporation that is in arrears or in default to the City of Iowa City upon any debt or contract. Prior failure of a Proposer to perform faithfully on any previous contract or work for the City may be grounds for rejection. If requested, the Proposer shall present evidence of performance ability and possession of necessary facilities, pecuniary resources and adequate insurance to comply with the terms of these proposal documents; such evidence shall be presented within a specified time and to the satisfaction of the City.
10. Collusive Proposing. Emergency contracts are exempt from this provision.

C. Specifications

1. **Formal Specifications.** The Proposer shall abide by and comply with the true intent of the specifications (i.e., not take advantage of any unintentional error or omission and bring this information to the attention of the City). Whenever mention herein is made of a service to be provided in accordance with laws, ordinances, building codes, underwriters' codes or similar

expressions, the requirements of these laws, ordinances, etc., shall be construed as the minimum requirements of the specifications.

The absence of a written list of deviations submitted with the proposal shall hold the Proposer strictly accountable to the City and to the specifications as written. Any unauthorized deviation from the specifications may be grounds for rejection of the service when delivered.

2. Proposed Alternate. When an item is identified in the bid document by a manufacturer's name or catalog number, it is understood that the Proposer proposes to furnish the commodity and/or service so identified by the City unless the Proposer specifically proposes an alternate. In bidding on a proposed alternate, the Proposer shall clearly state on his/her bid exactly what he/she proposes to furnish, and forward with his/her bid, a complete description of the proposed alternate, including brand, model number, drawings, performance and test data, references, and any other information necessary for a complete evaluation. Proposer shall include a statement setting forth any changes in other materials, equipment, or other work which would be required by incorporation of the proposed alternate. The burden of proof of the merit of the proposed alternate is upon the Proposer.

The City's decision to approve or disapprove of a proposed alternate shall be final.

3. Qualifications, Credentials and References. The Proposer shall provide a description of qualifications, credentials, experience, and resources as they relate to the provision of the proposal. The Proposer shall also provide a list of clients for whom similar work has been performed within the last two years, including the firm, contact person, address, and phone number of each contact person.

Any addenda shall be issued by the City within a reasonable time prior to the proposal date. It is the Proposer's responsibility to visit this web-site to ensure that they have received all important addenda or revisions to the Request for Proposal prior to bidding.

5. Receipt of One Proposal. In the event only one proposal is received, the City of Iowa City may require that the successful vendor submit a cost proposal in sufficient detail for the City to perform a cost/price analysis to determine if the proposal price is fair and reasonable.

D. Selection of Firm

1. Rejection of Proposals. The City reserves the right to accept or reject any or all proposals, to waive irregularities and technicalities, and to request resubmission. The City also reserves the right to reject the proposal of any Proposer who has previously failed to perform properly or complete on time contracts of a similar nature, or a proposal from a Proposer who, investigation shows, is not in a position to satisfactorily and timely perform the contract.

2. Selection. The City desires to enter into negotiations and ultimately reach an agreement with a Proposer who demonstrates the best combination of attributes to conduct the project, and who also negotiates a project cost with the City that is fair and reasonable. The City may conduct discussions with any Proposer who has submitted a proposal to determine qualifications, for further consideration. Since the initial review by the City will be deemed preliminary in nature, the document and process will be deemed confidential until such time as the successful Proposer is selected. Criteria for selection will include but not be limited to:

- The quality, availability, adaptability and life cycle costing of the commodities and/or service.
- Guarantees and warranties.
- Ability, capacity and skill to provide the commodities and/or service required within the specified time.
- Ability to provide future maintenance and service.
- Character, integrity, reputation, experience and efficiency.
- Quality of performance of previous and/or existing contracts.
- Previous and existing compliance with laws and ordinances relating to contracts with the City and to the Proposer's employment practices.
- Whether the Proposer is in arrears to the City, in debt on a contract or is a defaulter on surety to the City.
- If reasonable doubts arise as to Proposer's solvency, the City reserves the right to require financial information sufficient to show solvency and/or require a performance bond.
- Such other relevant information as may be secured by the City.
- Cost estimate; the City is not required to accept the proposal with the lowest cost estimate.

Once the City has reached an agreement with the Proposer, a purchase order will be issued to the awardee. The purchase order will define the conditions of the contract between the City and the contractor selected to receive the award.

3. Corrections to Submitted Proposal. Any changes that are made to this proposal using correction fluid, writing utensils, etc. before submission must be dated and initialed in each area that a change was made.
4. Pricing Requirements. All pricing submitted by the Proposer shall be indicated in both words and figures. (Ex. \$200.50, Two hundred dollars and fifty cents).
5. Presentations. When required and based on an evaluation of proposals submitted, the City may select finalists who will be required to participate in interviews, including key personnel designated for the proposal, and to make presentations regarding their qualifications and their ability to furnish the required service to best serve the needs of the City.

Formal presentations will be scored and evaluated by a committee. The evaluation committee will make a recommendation to the City Manager and if required, to the City Council for final approval. Nothing in the proposal can obligate the City to enter into a contract.

6. Errors in Proposal. Any ambiguity in any proposal as a result of omission, error, lack of clarity or noncompliance by the Proposer with specifications, instructions and conditions shall be construed in the light most favorable to the City. Changes in proposals shall be initialed and dated.

E. General Contract Provisions

1. Contract Award. Upon City's selection and satisfactory negotiation between City and Proposer on the work to be performed, a written award in the form of a Purchase Order, contract or other instrument shall result in a binding contract without further action by either party. The contract shall be on forms provided by the City; or if the Proposer's contract document is used, the City reserves the right to modify any document to conform to the request for proposal and to do so in the light most favorable to the City.
2. Insurance. Current Certificate of Insurance in the amounts specified shall be on file with the City before work can commence.
3. Availability of Funds. A contract shall be deemed valid only to the extent of appropriations available to each project. The City's extended obligation on these contracts which envision extended funding through successive fiscal periods shall be contingent upon actual appropriation for the following fiscal year.
4. Change in Laws: In the event of a change in law that frustrates the goals of the City relative to this contract, the City will be entitled to terminate the contract upon written notification to the vendor without cost or penalty to the City.
5. Contract Alterations. The City reserves the right to make changes to the good and/or services to be provided which are within the Scope of this Contract. No assignment, alteration, change, or modification of the terms of this Contract shall be valid unless made in writing and agreed to by both the City and the Vendor. The Vendor shall not commence any additional work or change the scope of the goods and/or services provided until authorized in writing by the City. The Vendor shall make no claim for additional compensation in the absence of a prior written approval and amendment of this Contract executed by both the Vendor and the City. This Contract may only be amended, supplemented or modified by a written document executed in the same manner as this Agreement by the Purchasing Division.
6. Subletting of Contract. Proposer shall not assign, transfer, convey, sublet or otherwise dispose of the contract or their right, title or interest therein, or their power to execute such contract to any other person, firm or corporation without the prior written consent of the City, but in no case, shall such consent relieve the Proposer from their obligations, or change the terms of the contract.
7. Contract Period. Contract shall remain in force for the full specified period and until all services have been satisfactorily delivered and accepted and thereafter until all requirements and conditions shall be met, unless:
 - a. Extended upon written authorization of the City and accepted by contractor, for a period negotiated and agreed upon by both parties, when in the best interest of the City.
 - b. Terminated due to default, as described below.
8. Default. The contract may be cancelled or annulled by the City in whole or in part by written notice of default to the Proposer upon non-performance, violation of contract terms, delivery failure, bankruptcy or insolvency, or the making of an assignment for the benefit of creditors. The City reserves the right to grant Contractor a specified cure period during which to cure or remedy the default, which cure period shall be included in the written notice of default. If default is not cured within the specified time, City reserves the right, but is not obligated to, extend the

cure period or City may deem the Contract terminated without further notice. In either event, the defaulting Contractor (or his/her surety) shall be liable to the City for cost to the City in excess of the defaulted contract price. Lack of knowledge by the Contractor will in no way be a cause for relief from responsibility.

If the Contract is terminated, an award may then be made to the next qualified Proposer; or when time is of the essence, services may be contracted in accordance with Emergency procedures.

9. Delivery Failures. Failure of a contractor to provide commodities and/or service within the time specified, unless extended in writing by the City, or failure to replace rejected commodities and/or service when so directed by the City shall constitute delivery failure. When such failure occurs the City reserves the right to cancel or adjust the contract, whichever is in the best interest of the City. In either event, the City may purchase in the open market commodities and/or service of comparable worth to replace the articles of service rejected or not delivered. On all such purchases, the Contractor shall reimburse the City, within a reasonable time specified by the City, for any expense incurred in excess of contract prices, or the City may deduct such amount from monies owed the Contractor. If the contract is not cancelled, such purchases shall be deducted from contract quantities. The City reserves the right to accept commodities and/or service delivered which do not meet specifications or are substandard in quality, subject to an adjustment in price to be determined by the City. Acceptance will be at the sole discretion of the City.
10. Force Majeure. The Contractor shall not be liable in damages for delivery failure when such failure is the result of fire, flood, strike, and act of God, act of government, act of an alien enemy or any other circumstances which, in the City's opinion, is beyond the control of the Contractor. Under such circumstances, however, the City may at its discretion cancel the contract.
11. Indemnity. The Proposer shall indemnify, defend and hold harmless the City of Iowa City and its officers, employees and agents from any and all liability, loss, cost, damage, and expense (including reasonable attorney's fees and court costs) resulting from, arising out of, or incurred by reason of any claims, actions, or suits based upon or alleging bodily injury including death, license, patent, or copyright infringement, or property damage rising out of or resulting from the Proposer's operations under this Contract, whether such operations be by the Contractor or by any Subcontractor or by anyone directly or indirectly employed by either.

Proposer is not, and shall not be deemed to be, an agent or employee of the City of Iowa City.

Responsibility for Damage Claims - It is specifically agreed between the parties executing this contract that it is not intended by any of the provisions of any part of the contract documents to create in the public or any member thereof a third party beneficiary hereunder, or to authorize anyone not a party to this contract to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this contract. It is understood that no subcontractor is a third party beneficiary to any contract between the Contracting Authority and the prime contractor. Nothing in any special provision or any supplemental specification shall be construed as eliminating or superseding the requirements of this section.

Proposer further agrees to:

- a. Save the City, its agents and employees harmless from liability of any nature or kind for the use of any copy-right or non-copyright composition, secret process, license, patented or unpatented invention, article, apparatus, or appliance, including any device or article forming a part of the apparatus or appliance of which the Proposer is not the patentee, assignee, licensee or owner, furnished or used in the performance of the contract.

- b. Obtain all permits and licenses required by city, state and federal governments and pay all related fees. The Proposer shall also comply with all laws, ordinances, rules and regulations of the City, State of Iowa and the Federal Government.
12. Anti-Discrimination. Proposer shall not discriminate against any person in employment or public accommodation because of race, religion, color, creed, gender identity, sex, national origin, sexual orientation, mental or physical disability, marital status or age. "Employment" shall include but not be limited to hiring, accepting, registering, classifying, promoting, or referring to employment. "Public accommodation" shall include but not be limited to providing goods, services, facilities, privileges and advantages to the public.
13. Choice of Law and Forum. The laws of the State of Iowa shall govern and determine all matters arising out of or regarding this proposal, including but not limited to any resulting Contract, without regard to the conflict of law provisions of Iowa law. Any and all litigation commenced regarding this proposal or any resulting Contract shall be brought and maintained solely in Johnson County District Court for the State of Iowa, Iowa City, Iowa, or in the United States District Court for the Southern District of Iowa, Davenport Division, Davenport, Iowa, wherever jurisdiction is appropriate. This provision shall not be construed as waiving any immunity to suit or liability in State or Federal court, which may be available to the City of Iowa City.

F. Payment Provisions

1. Payment Terms. Payment may be made only after inspection and acceptance by the using department. Payment of balances shall be made only after approval and final acceptance by the City.

Attn: Jude Moss
City of Iowa City
410 East Washington St.
Iowa City, Iowa 52240

In all cases, regulations and limitations imposed by the Federal Government and State of Iowa shall prevail.
4. Taxes. The City of Iowa City is exempt from all Federal, State of Iowa and other states' taxes on the purchase of commodities and services used by the City of Iowa City within the State of Iowa. Section Ten – Contract Compliance

City of Iowa City Contract Compliance Document

(To be completed by awarded vendor only)

General Policy Statement

It is the policy of the City of Iowa City to require equal employment opportunity in all City Contract work. This policy prohibits discrimination by the City's contractors, consultants and vendors and requires them to ensure that applicants seeking employment with them and their employees are treated equally without regard to race, color, creed, religion, national origin, sex, gender identity, sexual orientation, disability, marital status, and age.

It is the City's intention to assist employers, who are City contractors, vendors or consultants, in designing and implementing equal opportunity so that all citizens will be afforded equal accessibility and opportunity to gain and maintain employment.

Provisions:

1. All contractors, vendors, and consultants requesting to do business with the City must submit an Equal Opportunity Policy Statement before the execution of the contract.
2. All City contractors, vendors, and consultants with contracts of \$25,000 or more (or less) if required by another governmental agency) must abide by the requirements of the City's Contract Compliance Program. Emergency contracts may be exempt from this provision at the discretion of the City. Regardless of the value of the contract, all contractors, vendors, and consultants are subject to the City's Human Rights Ordinance, which is codified at Article 2 of the City Code.
3. Contracting departments are responsible for assuring that City contractors, vendors, and consultants are made aware of the City's Contract Compliance Program reporting responsibilities and receive the appropriate reporting forms. A notification of requirements will be included in any request for proposal and notice of bids.
4. Contracting departments are responsible for answering questions about contractor, consultant, and vendor compliance while the contract with the City.
5. All contractors, consultants and vendors must refrain from the use of any signs or designations which are sexist in nature, such as those which state "Men Working" or "Flagman Ahead", and instead use gender neutral signs.
6. All contractors, consultants, and vendors must assure that their subcontractors abide by the City's Human Rights Ordinance. The City's protected classes are listed at Iowa City City Code section 2-3-1.

Suggested steps to assure Equal Employment Opportunities

1. Company Policy

Determine your company's policy regarding equal employment opportunities. Document the policy and post it in a conspicuous place so that it is known to all your employees. Furthermore, disseminate the policy to all potential sources of employees and to their subcontractors asking their cooperation. The policy statement should recognize and accept their responsibility to provide equal employment opportunity in all your employment practices. In regard to dissemination of this policy, this can be done, for example, through the use of letters to all

recruitment sources and subcontractors, personal contacts, employee meetings, web page postings, employee handbooks, and advertising.

2. Equal Employment Opportunity Officer

Designate an equal employment opportunity officer or, at a minimum, assign someone the responsibility of administering and promoting your company's Equal Employment Opportunity program. This person should have a position in your organization which emphasizes the importance of the program.

3. Instruct Staff

Your staff should be aware of and be required to abide by your Equal Employment Opportunity program. All employees authorized to hire, supervise, promote, or discharge employees or are involved in such actions should be trained and required to comply with your policy and the current equal employment opportunity laws.

4. Recruitment

- (a) Let potential employees know you are an equal opportunity employer. This can be done by identifying yourself on all recruitment advertising as "as equal opportunity employer".
- (b) Use recruitment sources that are likely to yield diverse applicant pools. Word-of-mouth recruitment will only perpetuate the current composition of your workforce. Send recruitment sources a letter annually which affirms your commitment to equal employment opportunity and requests their assistance in helping you reach diverse applicant pools.
- (c) Analyze and review your company's recruitment procedures to identify and eliminate discriminatory barriers.
- (d) Select and train persons involved in the employment process to use objective standards and to support equal employment opportunity goals.
- (e) Review periodically job descriptions to make sure they accurately reflect major job functions. Review education and experience requirements to make sure they accurately reflect the requirements for successful job performance.
- (f) Review the job application to insure that only job related questions are asked. Ask yourself "Is this information necessary to judge an applicant's ability to perform the job applied for?" Only use job-related tests which do not adversely affect any particular group of people.
- (g) Monitor interviews carefully. Prepare interview questions in advance to assure they are only job related. Train your interviewers on discrimination laws. Biased and subjective judgments in personal interviews can be a major source of discrimination.
- (h) Improve hiring and selection procedures and use non-biased promotion, transfer and training policies to increase and/or improve the diversity of your workforce representation. Companies must make sure procedures for selecting candidates for promotion, transfer and training are based upon a fair assessment of an employee's ability and work record. Furthermore, all companies should post and otherwise publicize all job promotional opportunities and encourage all qualified employees to bid on them.

Below for your information is a copy of Section 2-3-1 of the Iowa City Code of Ordinances which prohibits certain discriminatory practices in employment as well as a sample policy. Please note that the protected characteristics include some not mandated for protection by Federal or State law. As a

contractor, consultant or vendor doing business with the City of Iowa City you are required to abide by the provisions of the local ordinance in conjunction with your performance under a contract with the City.
