

Go-Green Event Partner Proposal

As a race director there are many things to consider when hosting a successful 5k run to a series of trail races that extend over the mountains. You have to think about timing, shirts, registration, marketing, communication, permits, portable toilets, the list goes on and on and on. Here at Go-Green Events we offer everything under the sun in Event Management. We can help you get your race a jump start by facilitating some of the needs you may have as a Race Director. If you are just getting started or if this race is a decade old and could use a face lift we have the tools to help facilitate event success!

We currently have over 30 races under our partner umbrella and each event has doubled in size over the years with the help of our marketing team. As a partner with Go-Green Events you will have access to our 80,000 runners in our database along with our 10,000 followers on Instagram and Facebook. We market for you to help bring the runners to your starting line!

Getting Started! Well the first thing to consider once you know you want to start a race or already have an existing race is registration. With our Partner Platform with RunSignUp we can get you cheaper discounts on registration fees with NO startup costs.

Once we get you under our "Partner Wing" we can facilitate the following:

- Timing Services (Discounted 10% with our partner account)
- Apparel (Discounted 10% with our partner account)
- Marketing (Free with our partner account)
- Complete Event Management (Upfront Fee to be a standing RD for your event)

We have vendors and resources with discounts for:

- Bibs
- Insurance
- Portable Toilets
- Apparel
- Awards

If you have any questions you can email us directly
