

Seminar Series: Proposal for Upcoming Speakers

Goal:

The main goal of the Seminar Series is to expose trainees to a variety of research topics in musculoskeletal health research given by outstanding researchers and presenters from around the world, and to encourage the exchange of ideas between different disciplines to spark interesting discussions and potential new solutions.

How to Propose a Speaker?

Seminars are typically organized at least 6 months in advance to ensure proper planning of the event. Please keep this in mind when making a proposal for an upcoming speaker. It may be possible to organize seminars outside of the standard scheduling in order to capitalize on visiting speakers for other events. Please complete the attached form with as much detail as possible and forward to the Seminar Committee Chair and Operations Manager: Ana Luisa Trejos (atrejos@uwo.ca) and Shannon Woodhouse (kirkcent@uwo.ca).
