THE IMPACT OF LUPUS

Lupus is an unpredictable and misunderstood autoimmune disease that ravages different parts of the body. It is difficult to diagnose, hard to live with, and a challenge to treat. The symptoms can be severe and highly unpredictable and can damage any organ or tissue, from the skin or joints to the heart or kidneys. **More of your friends, family, co-workers and neighbors live with or are impacted by lupus than you even realize.**

THE LUPUS LEADERSHIP AWARD

The Lupus Leadership Award is presented annually at the Purple Ball to recognize an individual, couple, company or healthcare provider for outstanding support and commitment to improving the quality of life for people affected by lupus.

ANN & AARON JACKSON

This year's award recipients are Ann and Aaron Jackson. Ann is the Director of Marketing for a local senior living technology start-up, Sherpa. Aaron is a Management Consultant for World Wide Technologies.

Ann has been involved with the Lupus Foundation of America Heartland Chapter for many years and serves as a member of the Board of Directors, Chair of the Marketing and Development Committee, and a member of the Purple Ball Committee. Aaron was chair of the Lupus Foundation's WolfRide GranFondo from 2013 to 2017. He is a frequent supporter and volunteer at lupus events.

Ann & Aaron are a dynamic young couple dedicated to raising awareness and funds to support people living with lupus and research to find the cure.
