EXECUTIVE SUMMARY

GFWC's Mission Statement reflects a unifying vision for the organization and clearly states the purpose and scope of our endeavors. The Strategic Plan supports and advances the Mission Statement. The GFWC Strategic Planning Committee (composed of members of the Executive Committee, Director-elect of Junior Clubs and five other members from the membership appointed by the International President) is responsible for strategic planning. The GFWC President-elect serves as the Chairman of the committee.

A strategic plan is a working document that guides and strengthens the activities of an organization. Goals and strategies designed to achieve them enable the organization to plan effectively for the future,

The Strategic Plan identifies six major issues (Membership, Leadership, Public Awareness, Special Projects and Community Service Programs, Financial Stability, Management and Governance) facing the federation (not in any order of priority). It is organized with clear goal statements within each issue, objectives that support the goals, and specific strategies for achieving each objective.

Focusing on these six main issues and the achievement of the goals and objectives will guide GFWC toward realizing its vision of providing opportunities to its members to serve their communities effectively through organized activities, develop leadership skills, participate in continued learning and enrichment, and cultivate lasting friendships.
