

## **Online Tutors @ Zico Learning**

Contact Adam to learn more: [adam@zicolearning.com](mailto:adam@zicolearning.com)

At Zico, we're building a brand-new online tutoring platform It's going to take a team of all-star educationists to execute, and we hope that you might be one of them. Previously, we've built out an English learning app for kids that reached over 200,000 learners across the country.

Zico is our online tutoring platform, where teacher can host live online tuitions with small groups of students. On Zico, tutors leverage our lesson plans, slides, quizzes, videos, and games to deliver amazing learning experiences. It works like physical tuitions, in that you have batches of kids that regularly attend the class at fixed times every week. However, all the classes happen over video using our platform.

Today, to be a private tutor, teachers must be entrepreneurs. They have to do marketing, sales, scheduling, lesson planning, grading, travel around town and more. On Zico, teachers only have to do what they do best: teach. We do the rest. Moreover, tutors can earn up to 1 lakh a month teaching with Zico!

### **Our Online Tutors must have experience in:**

- Teaching in classrooms for 1+ years, ideally in Math and Science for Stds. 5-7, but not necessarily
- Have experience using technology tools and digital content for learning

### **Selection Process**

1. A phone call interview
2. Recorded video session executing one of our lessons (10 mins)
3. A live video session with our internal team, teaching one of our lessons
