

## Custody and Parental Rights Form

Tabono requests that you indicate whether or not a custody/shared parenting plan and/or order is applicable to your child and that you provide us with a copy of any such documents. It is important that we have this information so we are aware of the terms and can discuss them with you.

In cases where a shared parenting agreement exists, we recognize that either parent may be able to approve medically related services for your child. Unless we have legal documentation that mandates otherwise, this is standard procedure followed by Tabono. Consequently, it is important that we have any custodial/parenting/legal documents prior to initiating treatment. Should any changes in the agreements occur, we request that you notify us and also give us a copy of the new agreement for our records.

We will likely not be aware of these situations unless you alert us to them. Our understanding of each parent's rights must be governed by any applicable agreement or order. Accordingly, we ask that you communicate with us regarding these matters so we can work together to provide the best possible experience for your family.
