3- EXECUTIVE SUMMARY

The main purpose of [redacted], Community Mental Health Center is to provide the highest quality, consumer driven, behavioral and targeted case management services to individuals in need. We strive to assist the community's mental health clients to obtain the services needed and to support them in their goals to improve functionality and their integration in community settings, while utilizing a systemic approach to improve the overall quality of the individual's life. Since our humble beginnings in 2012 as a Targeted Case Management Agency, [redacted] has grown and expanded it's services to mental health community-based services and became a Community Mental Health Center in 2015. We have been servicing Medicaid recipients who are enrolled in different managed medical plans with whom we have contract.

We currently offer a myriad of therapeutic services to the clients in addition to the targeted case management services. [redacted] operates with an integrated team of Psychiatrists with more than twenty years of experience, Targeted Case Managers with backgrounds in the health care, education and mental health fields, and licensed & master level Clinical Social Workers, Mental Health Counselors and Marriage & Family Therapists. Our team, is solely focused on the improvement and recovery of the individual while creating awareness and developing skills necessary to achieve the client's wellbeing. Clients can benefit from services such as: individual, couple and family therapy, Psych rehabilitation group, group therapy, interventions with individuals and families for the treatment of emotional and behavioral problems such as: domestic violence, bullying, anger management, stress related disorders, with particular emphasis in PTSD, amongst others.

Since 2014, [redacted] has not only grown into a Community Mental Health Center, but it also opened a second location in Broward county, offering behavioral health and targeted case management services to Medicaid recipients. The company is also currently working on different projects to expand its' services such as obtaining contracts with several insurance companies and becoming certified by Joint Commission. Our company is providing transportation to the members who are currently attending our facility to receive clinical services. Since transportation is not our main service it is key to assure that clients be in compliance with recommended services/treatment.

Experienced personnel, in both the mental health field and with an extensive administrative background, manage the company. Since the birth of the company, [redacted]C has experienced an overall growth by expanding the services it provides and by continuing to gain contracts with medical insurances such as: Magellan Complete Care, Sunshine Health, Staywell, Beacon Health Strategies, Amerigroup and Concordia. This has been possible, in part due to the unblemished reputation of the company which initially only worked with Medicaid recipients and

has been able to expand coverage due to the ever changing Medicaid reforms. The company's growth demanded to develop a company structure to provide a high quality of services and be accountable for the utilization of Medicaid resources**. See Addendum 1 Organizational Chart.**

Mission Statement

The Mission of [redacted]C, Community Mental Health Center is to provide the highest quality, consumer driven, behavioral health and targeted case management services to individuals in need of services. We will assist the mental health community clients in obtaining the services needed and to support them to meet the goals to improve functionality and the integration in the community.

Vision

The Vision of [redacted] Community Mental Health Center, is to become one of the best centers providing behavioral health and targeted case management services in the Dade County– Broward County areas. In three years from now we want to be known as a viable option in our community, based on the quality of services provided and for the respect we have as providers for all human beings who request our services or enter into any kind of relationship (client's family, professionals, employees, etc) with our company.

Our Values

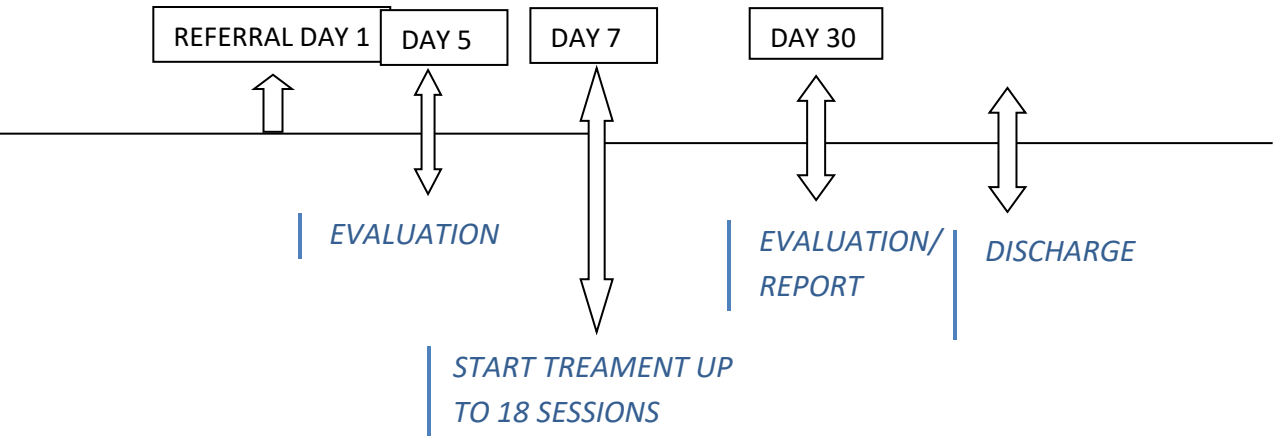
- Humanism
- Professionalism Ethic Values
- Honesty
- Recovery – Quality of life
- Culturally sensitiveness

4- TECHNICAL QUALIFICATIONS

4.1 GENERAL INFORMATION

[redacted] LLC shall provide mental health services in a continuum from the referral to the discharge and after care. A mental health assessment and individualized treatment plan will be construed by the clinician with the collaboration of the client, the clients's family and other key actors of the client's recovery. The Treatment Plan will be comprehensive to address the nature and complexity of the client's mental disorder and treatment needs.

TIME LINE FROM REFERRAL TO DISCHARGE



[redacted] LLC shall provide individual, group, and family mental health therapy for clients on an as needed basis and as determined by the completion of a diagnostic mental health evaluation, and as specified in the client's Individualized Treatment Plan (ITP). Therapy, as indicated by the diagnostic evaluation and treatment plan, shall begin within five (5) business days of the referral being received. [redacted] LLC shall provide or arrange for clients to receive immediate crisis intervention and/or emergency mental health treatment as necessary.

[redacted] LLC shall provide or arrange for clients identified with suicide risk factors to receive an assessment of suicide risk or emergency mental health and substance abuse services. All referrals that require hospitalization or Baker Act the MDCPS referral source will be notified through the MDCPS Liaison.

4.2 PURPOSE

Major Goal(s) of the Service

[redacted] will provide supervised client with Evidence Based Approach Trauma Focus Cognitive Behavioral Therapy. TF- CBT mental health services will be provided through individual, group, and family therapy services which will address the client's treatment needs as determined through completion of a diagnostic mental health evaluation. Assigned clinician will complete an Individualized Treatment Plan for all client, based on client's symptoms of mental disorder and which incorporates evidenced based treatment(s). TF CBT is proven to help clients with Post Traumatic Stress Disorder (PTSD) and other mental health conditions to reduce negative symptoms, improve functioning, encourage understanding of mental health and/r other related disorders, and to implement appropriate skills to maintain positive functioning, attain recovery, and avoid relapse.

OUR APPROACH. TF-CBT EVIDENCE-BASED PRACTICE

National Survey of Children's Exposure to Violence

- More than 60% exposed to violence
- Almost half (46.3%) assaulted in past year
- 1 in 10 were injured in the assault event
- 1 in 4 were victims of robbery, vandalism, or theft
- 1 in 10 experienced child maltreatment (PA, Neglect, SA, EA or family abduction)
- 1 in 10 saw one member of their family assault another
- 1 in 16 were victimized sexually
- More than 1 in 3 (38.7%) had 2 or more direct victimizations
- 1 in 10 had five or more direct victimizations
- 1 in 75 had ten or more direct victimization experiences

1 /3 of children and adolescents (9-to-16) will have one traumatic event by age 16 (some studies >40%). These numbers are higher in client involved in Juvenile Justice system.

For Whom IS TF-CBT Appropriate?
Children/Adolescents with:
ANY known trauma history-single or multiple type Prominent trauma symptoms (PTSD, depression, anxiety, with or without behavioral problems*)
TF-CBT -most efficacy research of any child trauma model
20 RCTs to date multiple other studies
Parental/caretaker involvement is optimal

- However, PTSD improves even in the absence of caretaker involvement
* Children with severe behavior problems may need additional or alternative interventions

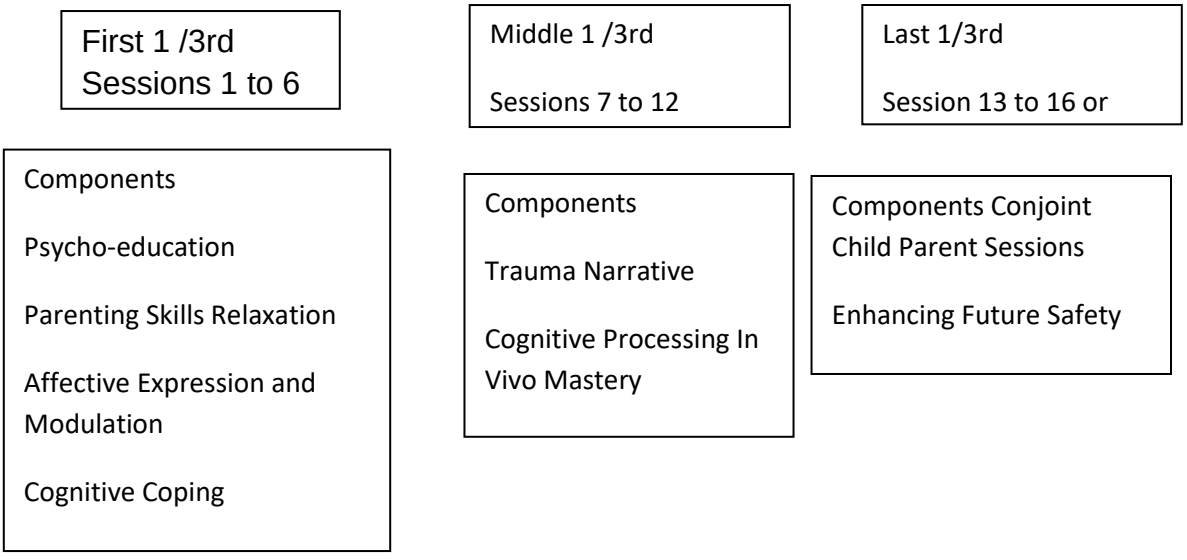
Behavioral Trauma Symptoms

- Avoidance
- Traumatic Bonding
- Anger
- Substance Abuse
- Self-Injury
- Modeling maladaptive behaviors
    - Violent behaviors
    - Bullying
    - Poor relationship skills
    - Sexually inappropriate behavior
    - Unhealthy coping practices: e.g. substance use, etc.

TF-CBT COMPONENTS (**PRACTICE**)

This evidence-based approach known as Trauma Focus cognitive Behavioral Therapy is proven to be useful to treat children and adolescents who meet criteria for PTSD. The therapeutic process goes through 8 different components which are grouped in two phases: 1) Stabilization Phase (**P**sycho-education and Parenting Skills, **R**elaxation, **A**ffective Modulation, **C**ognitive Coping) and 2) Consolidation Phase (**T**rauma Narrative and processing, **I**n Vivo Desensitization, **C**onjoint Parent-Child Sessions, **E**nhancing Future Safety and Development)

TF-CBT Session Structure



P.R.A.C.T.I.C.E.

Psycho-education and Parenting Skills
Relaxation
Affective Modulation
Cognitive Coping
Trauma Narrative and processing
In Vivo Desensitization
Conjoint Parent-Child Sessions
Enhancing Future Safety and Development

Psycho-education Component Goals

- Begins Exposure (GE, de-sensitization)
- Normalize child's experiences and symptoms
- Instill hope for their treatment and future
- Reduce blame and shame
- Reduce isolation
- Increase openness in family

Parenting Skills

- Establish parent as the person the child turns to for help in times of trouble
- Explain the rationale for parent inclusion in treatment
- Not because parent is part of the problem but because parent can be the child's strongest source of healing, they deal with behaviors
- Emphasize positive parenting skills
- Support parent's skills to stabilize family
- Enhance enjoyable child-parent interactions
- Evidence that TF-CBT enhances quality of parent-child relationships

Relaxation Goals

- Reduce physiologic manifestations of stress and PTSD
- Reduce distress related to trauma reminders
- Teach about and help to lower the body's alarm reactions
- Can be used at any time so child will probably need more than one skill to use
- Can be coupled with other skills like feeling expression or cognitive coping during the trauma narrative component

Affective Modulation. Goals for kids and teens:

- Find more healthy or effective ways to cope
- Reduce anxiety, anger, avoidance
- Help children to tolerate & manage extremes of emotions

Affective Modulation Goals for parents/caregivers

- Reduce anxiety, frustration, helplessness
- Enhance their ability to cope with stress from the trauma event(s) and prepare for the GE process
- Assess, develop skills to help their children with coping strategies following termination

Cognitive Processing/Coping Skills

- Help children and parents understand cognitive triad:
  1) Distinguish between thoughts, feelings, behaviors
  2) Understand connections between feelings, and behaviors in everyday events
- Help view events in more accurate and helpful ways
- Have parents assist children in cognitive coping with upsetting situations in everyday lives
- Practice outside of session

Trauma Narration: Direct Discussion of Traumatic Events
Reasons we avoid this with children: Child discomfort, Parent discomfort, Therapist discomfort, Legal issues
Reasons to directly discuss traumatic events:

- Gain mastery over trauma reminders
- Correction of distorted cognitions
- Resolve avoidance symptoms
- Model adaptive coping
- Identify and prepare for trauma/loss reminders
- Make Meaning of the trauma event(s)

In Vivo Mastery of Trauma

- Mastery of trauma reminders is critical for resuming normal developmental trajectory.
- Graded exposure to innocuous reminders now, paired with the traumatic experience
- To be used only if the feared reminder is innocuous (not if it's still dangerous)
- Resolve generalized avoidant behaviors
- Gradually help the child to get used to the feared situation

Conjoint Sessions Goals

- Share trauma narrative
- Build best possible parent-child communication
- Therapist models appropriate support of child
- Caregiver models -now and later- skillful coping for the child

HUMAN RESOURCES

Policy Title: Drug and Alcohol Free Environment Workplace

POLICY

It is the policy of [redacted] to make sure that any distribution, dispensation, possession or use of controlled substances or alcohol are prohibited on its property. Any employee who is found to have or distribute illegal drugs or controlled substances will be subject to disciplinary action, as well as possible referral for criminal prosecution. Disciplinary action might range from suspension to termination of employment.

PROCEDURE

Each employee must sign a Drug and Alcohol Free Workplace Acknowledgement Form. [redacted] understands that drug addiction and alcoholism are illnesses that cannot be resolved only by having personal effort. They require professional help and treatment. Any employee with drug or alcohol problems will be asked to seek treatment in the community or in any other place that they feel they can benefit from.

[redacted] will support any employee that seeks help because of alcohol and/or drug abuse. The extent of such assistance will be limited to identify proper programs offering services need by the employee, either locally, state wide or nationally. The employee is the ultimate responsible to go through the treatment and demonstrate that he/she is ready to come back to the job.

If there is anyone who believes that a staff member may have a drug and/or alcohol abuse problem, he/she should inform his/her supervisor. Supervisor will inform the Administrator and they will look for indicators like: lateness, constant absences, personal or professional irresponsibility, inappropriate behavior, persistent accidents or other behavior consistent with intoxication.

Abusing drugs and/or alcohol is not an excuse to overlook an employee's responsibilities at work. Even if the abuse is not on site but it permeates their performance in the center, disciplinary action will be taken.

[redacted] zero tolerance for use or abuse of illegal drugs/alcohol on the premises or is activities. An employee that is involved in a situation related to the abovementioned will be placed on administrative leave without monetary compensation. The Administrator will make a decision when the employee finishes treatment as to if he/she is ready to assume his work responsibilities.

If any employee is involved in the process of requiring treatment for drug alcohol abuse, this information will remain strictly confidential.

CONTINUOUS QUALITY IMPROVEMENT PROCESS

An annual review of the policy and procedures by the Administrator/Medical Director/Clinical Director will assess the policy and procedures as outlined.

OVERSIGHT RESPONSIBILITY

It will be the responsibility of the Administrator and/or designee monitor and execute the policy and procedure.
