- The discounts are determined according to the annual revenue target. All discounts are deducted from the Base Fare amount only (taxes and surcharges are not included). If the Corporation fails to meet its annual revenue target, it will either not be allowed to continue its participation in the program or will be able to participate but at a lower discount level. All discounts are granted on the "Adult type" fare amount only. No discounts will be granted for Codeshare flights or through fares based on SPA Agreements. Likewise, discounts will not be offered on flights operated by Anadolu Jet (Flight Series TK7000 to TK7999). If the corporate fails to reach the target, the vested and accrued rights for discounted rates are not reclaimed or recalled. Turkish Airlines may apply the general changes of the booking classes to TCCP Discount Fares anytime.
- In the event of TCCP Discount Fares are used for the group reservations, the rules and applications of group reservation will be valid.
