

District Property Repair Agreement

Homeowners and builders are responsible for ensuring that District of Squamish property is not damaged during construction. This includes, but is not limited to, damage to curbs, sidewalk, water valve risers, and cleanouts. It also includes actively protecting the storm drain system from deleterious materials, including placing protective materials and barriers around District property and using sediment control.

It is advised that you inspect your property, the adjacent public boulevard, and the downstream catch basins for damage prior to taking control of the property or prior to applying for a Building Permit. In the event you find a problem, you should document it and inform the Development Services Department at the District of Squamish immediately at **604-815-6872**. Any damage found by District Staff after commencement will be deemed to be your responsibility.

NOTE: Any construction or maintenance on District property requires a Work Permit. Damage to individual utilities such as BC Hydro, Telus or Fortis BC Gas, should be reported immediately to the respective service provider as well as the District of Squamish.

After reviewing the above notes, please check one of the following:

- No damage** to District property was found prior to start of construction.
- Damage** has been found – please describe and include photos if possible. _____

I, _____, the duly authorized signatory for the person, company or strata corporation applying for a Building Permit have inspected all visible District works and services (curb, sidewalk, street lighting, water service caps, etc.) in front of or on the property at _____ (civic address) and do acknowledge and understand that I am responsible for all costs associated with repairing all damage not noted above to the standards established by the District of Squamish.
