With or Without Animals: _____

Requested Animal by Name or type: _____

Number of Hours with animals: _____ TOTAL \$: _____

Number of Hours without animals: _____ TOTAL \$: _____

TERMS (PLEASE READ THOROUGHLY):

- We require a prearranged consultation with the photographer to determine the following: goals, animals needed for the shoot, scouted location where photos will happen, and expectations of the animals and staff, and for mini sessions, number of guests/customers.
- We do not style the animals with flowers or decorations, we clean them and if requested in advance will braid their manes and tails. You should arrive early to scout your location, style the animals with flowers, to decorate animals and set up props.
- Your date and time are not held until your deposit of \$50 is received. We will hold your spot for 48 hours from the date/time of this agreement listed above. Deposits are non-refundable but can be transferred to other services or farm admission.
- A minimum of one hour is required, \$100 with animals and \$50 without animals.
- Animal bookings include up to three (3) animals. Please select animals prior to your booked session to ensure they are groomed and ready before you arrive, otherwise wait time may incur and that will go against your allotted time.
- Time retrieving the animals and walking to and from photoshoot areas in the farm is included in the hour.
- If you book without animals and request an animal while here, that incurs an automatic charge of \$100.
- HPF Unicorn Farm™ reserves the right to use all photos taken of animals or on location in marketing materials and on website/Facebook. We will provide photography credits.
- Rain reschedules the day of the event are no problem. Cancellations require 7 days notice, no refunds are given for deposits but they can be transferred.
- When onsite, if you run over your allotted time longer than 5 minutes you will be charged for an additional hour, no exceptions.

- Ponies are not clipped or bathed during fall and winter unless nighttime temps reach 55+, they will be furry half of the year, we do our best to clean them in winter. Please pre-book animals so they can be groomed prior to your arrival.
- Waivers are required to be filled out prior to all photoshoots with animals for all parties involved.
- We reserve the right to switch out animals if there is an issue causing the animal distress or behavior problems.
- If horses need to be ridden, this must be discussed at initial consultation. Some horses are suitable for riding or sitting, some aren't so if you are requesting a specific animal it is important to understand their limitations before you arrive to your photo shoot.
- We do not put scared or crying children on horse's backs due to safety reasons. If the child is too scared to stand with horse, we can substitute another animal like rabbits or chickens but refunds are not given. We welcome you to bring your child ahead of time to see how they react to an animal before committing to a photoshoot only to discover they are terrified of horses.
- Horses all have weight limits regarding riders, please discuss this in advance with us, we do not compromise the health and safety of our horses by placing a rider too heavy for them on their backs.
- Horses and children together in a photo shoot require extra patience. Animals are not perfect and sometimes may not meet expectations. At times we might have to stop the photoshoot to accommodate the needs of the animal or even remove them. If that occurs, we will substitute an animal.
- Backdrops are subject to change without notice as the farm frequently changes, and we hold many events and festivals. If you are looking for a particular backdrop you saw online or here in person, be sure to include that in your initial consultation to be sure it is available. We change the farm around frequently and backdrops and locations change as we develop and grow.
- Deposits can be paid using checks, cash, or cards.
