# Baseball Announcer Scoresheet

A **Baseball Announcer Scoresheet** is designed to help announcers track the game for play-by-play commentary. It emphasizes clarity and quick reference.

## 1. Header Section

- **Game Information**:
    - Team Names: Home and Away
    - Date, Time, and Location
    - Weather
    - Broadcaster or Media Station

## 2. Lineups

- **Team Batting Order**:
    - Player Names, Numbers, and Positions
    - A checkbox or space to track substitutions
- **Quick Reference Columns**:
    - Player stats (e.g., batting average, home runs, RBIs)

## 3. Innings Play Grid

- Organized for rapid updates:
    - Rows for batting order
    - Columns for innings (1–9 or more for extras)
    - Space to note key plays like hits, strikeouts, or runs

## 4. Quick Stats Tracker

- **Space to Record**:
    - Pitch count for each pitcher

- - Total runs, hits, errors per inning
  - **Highlights**:
    - Key plays or milestones (e.g., home runs, notable strikeouts)

## 5. Notes

- Blank space for announcer's commentary notes, trivia, or observations.
