

MAC USER ELECTRONIC SIGNATURE INSTRUCTIONS

The outside activity form cannot be used with Preview or Safari's pdf plug-in.

If you are having difficulty completing the outside activity form on a Mac please use the directions below:

Click the link to download the form

http://phobos.ramapo.edu/~maclab/outside_activity.zip

If you are using Firefox, you might be asked what Firefox should do? Click on Open with Archive Utility and press ok

Click on the face icon on the left-hand side of the dock

Click on Go at the very top of your screen

Click on Home

This will bring up a window. Open the Downloads folder.

Open the folder called outside activity.

Press control on your keyboard and click on the outside_activity.pdf form

Choose "Open With" from the menu

Select Adobe Acrobat or Adobe Reader

If you are prompted for Acrobat to handle pdf's please click on yes

If your browser is setup to download to the desktop, please check there as well.

If instead of a folder you see outside_activity.zip. Please open that and a folder will be created.

Any questions or issues please email maclab@ramapo.edu
