

Sherwin-Williams®

Color Blast® Finish Selection Guide

America's Favorite Doors®

The following pages contain standard colors offered by Sherwin-Williams. These pages include:

- **4-Digit Sherwin-Williams Paint Codes:** Provides quick access to a color sample and 4-digit Sherwin-Williams paint code for the current color palette. If you have a color or 4-digit code not listed, send a request to Clopay's Color Blast team. For details email colorblast@clopay.com.
- **LRV rating for Coachman® Doors:** Light Reflective Value (LRV) measures the amount of light reflected from a painted surface. LRV is important to determine if the color is permitted on our Coachman® garage doors and this document shows if the color is approved.
- **Note:** Specific LRV and Solar Reflective requirements **ONLY** apply to Coachman® garage doors. For all other products, we strongly recommend using solar reflective paints when painting doors dark colors.

See below for details:

Color LRV	Coachman®	All Other Product
0 to 12	Not Permitted Note: These Colors Will Void Warranty	Solar Reflective Recommended (not required)
13 to 38	Solar Reflective Required	
39 to 100	Solar Reflective Recommended (not required)	

- We always recommend obtaining a paint sample. Visit your local Sherwin-Williams store or visit Sherwin-Williams at www.sherwin-williams.com
