

**Doctor's Note**

Date \_\_\_\_\_

Regarding Patient: \_\_\_\_\_

DOB: \_\_\_\_\_

To whom it may concern:

\_\_\_\_\_ is a patient of mine. I am a primary care physician. Based on my knowledge of his/her health and medical conditions, I am recommending he/she be medically exempt from the following

Face coverings (All forms)

PCR Testing

Further information will require a HIPPA release of medical information affidavit from my patient \_\_\_\_\_. While I am not a lawyer, I do possess a basic awareness of the Americans with Disabilities Act (ADA), which as I understand it requires retail establishments, schools, and businesses to make reasonable accommodations for those with a disability such as this. My understanding is this is referenced in Civil Code Sec. 51.7(a) and 51.7(b). Students who have an IEP do not need an exemption for face coverings.

I am also aware that the Local and State Departments of Public Health have stated medical exemptions are allowed and necessary for some people including “those with a medical condition, mental health condition, or disability.”

Many persons have disabilities, unseen mental health issues, and other serious ailments. Please let me know if you need further clarification or information about my patient’s exemption.

Sincerely,

\_\_\_\_\_, M.D.
