An environment is the natural surroundings which help life to grow, nourish and destroy on this planet called earth. Natural environment plays a great role in the existence of life on earth and it helps human beings, animals and other living things to grow and develop naturally. But due to some bad and selfish activities of the human beings, our environment is getting affected. It is the most important topic that everyone must know how to protect our environment to keep it safe forever as well as ensure the nature's balance on this planet to continue the existence of life.

### Environment Essay 2 (150 words)

As we all are well familiar with the environment, it is everything which surrounds us naturally and affects our daily lives on the earth. Everything comes under an environment, the air which we breathe every moment, the water which we use for our daily routine, plants, animals and other living things, etc around us. An environment is called healthy environment when natural cycle goes side by side without any disturbance. Any type of disturbance in the nature's balance affects the environment totally which ruins the human lives.

Now, in the era of advance living standard of the human being, our environment is getting affected to a great extent by the means of air pollution, noise pollution, deforestation, water pollution, soil pollution, acid rain and other dangerous disasters created by the human beings through technological advancement. We all must take an oath together to protect our natural environment to keep it safe as usual forever.

### Environment Essay 3 (200 words)

Environment means all the natural surroundings such as land, air, water, plants, animals, solid material, wastes, sunlight, forests and other things. Healthy environment maintains the nature's balance as well as helps in growing, nourishing and developing all the living things on the earth. However, now a day, some manmade technological advancement spoiling the environment in many ways which ultimately disturbs the balance or equilibrium of nature. We are keeping our lives in danger as well as existence of life in future on this planet.

If we do anything in wrong way out of the discipline of nature, it disturbs the whole environment means atmosphere, hydrosphere and lithosphere. Besides natural environment, a man made environment is also exists which deals with the technology, work environment, aesthetics, transportation, housing, utilities, urbanization, etc. Man made environment affects the natural environment to a great extent which we all must be together to save it.

The components of the natural environment are used as a resource however it is also exploited by the human being in order to fulfil some basic physical needs and purpose of life. We should not challenge our natural resources and stop putting so much pollution or waste to the environment. We should value our natural resources and use them by staying under the natural discipline.

## Environment Essay 4 (250 words)

An environment includes all the natural resources which surround us to help in number of ways. It provides us better medium to grow and develop. It gives us all things which we need to live our life on this planet. However, our environment also need some help from all of us to get maintained as usual, to nourish our lives forever and to never ruin our lives. The elements of our environment are declining day by day because of the man made technological disaster.

We need to maintain the originality of our environment to continue the life on the earth, the only place where life is possible till now in the whole universe. [World Environment Day](#) is a campaign being celebrated for years every year on 5<sup>th</sup> of June in order to spread the public awareness all over the world towards the environment safety and cleanliness. We must participate in the campaign celebration to know the theme of celebration, to know ways of saving our environment and to get aware about all the bad habits which declining the environment day by day.

We can save our environment in very easy manner with the little step taken by every person on the earth. We should reduce the amount of waste, throwing wastes properly to its place only, stop using poly bags, reuse some old things in new ways, repair and use broken things instead of throwing it away, see how much it would take to repair them, use rechargeable batteries or renewable alkaline batteries, make use of fluorescent light, rain water conservation, reduce water wastage, energy conservation, minimum use of electricity, etc.
