

To save as your desktop wallpaper:

Download as a pdf of jpeg by clicking on the [appropriate link](#).

Your preferred image should appear. Right click to Save Image. On PCs, the best place to save the image seems to be under Pictures.

Click on your Start button, and select Control Panel.

Under the Control Panel window, select Personalization.

In the Personalization window, select Desktop Background near the bottom of the window.

Browse to find your saved Desktop image.

Click Save Changes, and your desktop should display your STLCOP wallpaper image.

To save as your mobile wallpaper:

Download as a pdf of jpeg by clicking on the [appropriate link](#).

Your preferred image should appear. Press on the image until the option appears to Save Image.

Select Save Image.

Select Settings from your home screen.

Under Settings, select Wallpaper, Choose New Wallpaper.

Select your Photos folder, and then the saved desktop images.

Select Set.
