

 Time Point<sup>™</sup> Cloud

# Roster Scheduling

For the Way You Work Today

# Rostering & Scheduling Software

## Key Features

### Smart Scheduling

Schedule staff coverage for absences, that comes in on budget and ensures required customer service levels are maintained throughout your business.

### Fast & Intuitive

Create rosters in minutes with pre-defined shifts, drag & drop along with copy features all on one screen.

### Always On Budget

Our system displays the total planned staff wage cost against the budget before that period begins so adjustments can be made if necessary.

### Policy Compliance

Your staff's working rules, entitlements, pending visa expiry dates or infringements are interpreted and displayed while rostering.

### Empower Managers

Assign managers access to their team, department or location, allowing them to plan staffing level requirements.

### Instant Roster Publishing

Send your staff their roster via our Time Point app, allowing them to immediately view it from their smart device.

### View Labour Costs

View real-time dashboards with drill downs on actual labour costs against budgeted costs by department or location.

### Workflow Alerts

Managers can receive alerts on any staff attendance deviations, policy breaches or pending excess costs straight to their smart device.

### Powerful Reporting

Discover and analyse real-time data on all aspects of your workforce's performance through our powerful dashboards and reports.

### Connecting Employees

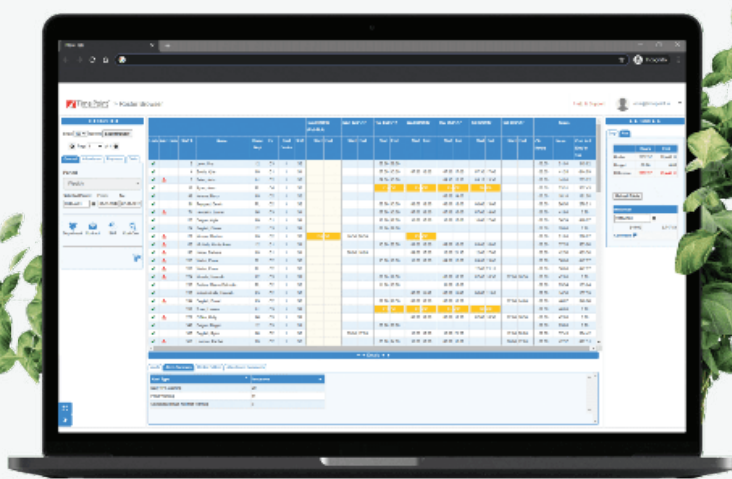

Reduce admin times by viewing and approving shift swaps, holiday requests and absence requests online with all employee's files updated instantly.

## What can Time Point Cloud do for your business?

One system, one solution that meets the needs of your business.

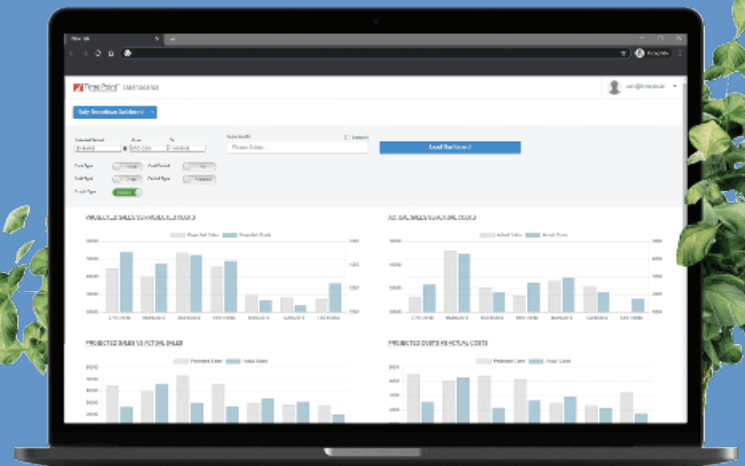

### Fast, Intuitive & User-Friendly Staff Planning Tool

Our staff planning tool saves you time by allowing you to simply drag and drop shifts, copy week patterns or even an entire previous period when building rosters.

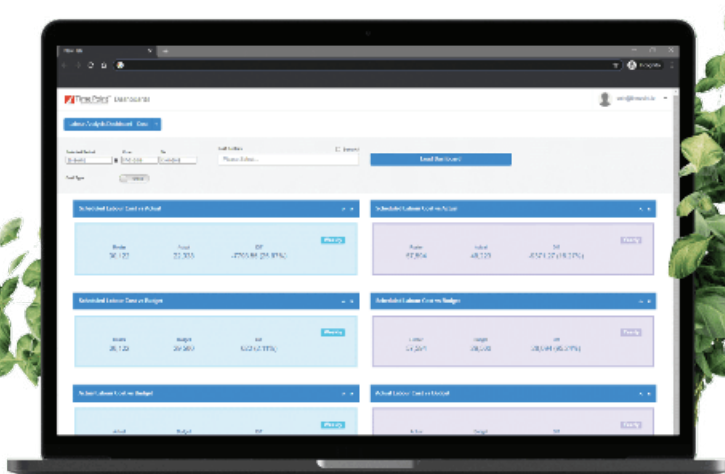

### View Multiple Real-Time Data On One Screen

View multiple types of data at a glance including staff coverage, holidays, absences, visa expiries plus actual rostered labour costs against your budget.

### Connect and Empower Managers and Employees

Connect with your employees through rosters which are uploaded to our app, approve shift swaps or requests and use our managers view to see actual versus rostered costs using any smart device.

## We're on the Cloud

Time Point recognises that time sensitive data is critical to every business, no matter what their size. Our workforce management solutions are fully secure and accessible 24/7 from anywhere, anytime.

We have developed our cloud solution on the Microsoft Azure platform. We know by using Microsoft Azure you are guaranteed a totally reliable service that you can depend on every day of the year.

### EMPOWER

Empower your employees with one integrated system for HR and workforce management.

### PROTECT

Protect your employees and your company by ensuring all policies and procedures are adhered to.

### REDUCE

Reduce admin time and staff costs through increased efficiencies with real-time workforce analytics.

## EVERYTHING YOU NEED

for an even more efficient workforce.

All in one system!
