List of Reports:

- ✓ Detailed Project Efforts Report showing Task wise Summary, User wise Summary, and Status wise Summary with graphs.
- ✓ Detailed Customer Efforts report with Project wise and User wise summary graphs.
- ✓ Detailed Company Efforts Report with Customer wise, Project wise, Task wise, User wise and Status wise summary graphs.
- ✓ User Efforts report showing user wise detailed table.
- ✓ Generate all reports on time based, billable or non billable efforts based.

Benefits of Web Hosted service:

Managing timesheets and projects online provides a number of benefits compared to traditional desktop based software.

Employees can log their timesheets from any computer with an internet connection and browser. Project information is available at all times, from onsite or offsite. Additionally, data is professionally stored and managed with daily backups ensuring no accidents will erase your critical information.
