September 9, 2022

Hello Seniors and Families,

Danville Community College is excited to offer the Career Pathways presentation at George Washington High School on September 14, 2022. Students will have the opportunity to see what DCC has to offer and choose a potential career pathway. This opportunity is exciting for GWHS because this gives students another choice for post secondary education. DCC can greatly reduce the costs of a college education by offering classes that transfer to many four year institutions.

DCC is also offering a resume writing class to all seniors through their English 12 class. This will give students a resume, in their hands, when they move from high school to the workforce.

On November 2, 2022, GWHS will administer the ASVAB to all current seniors. The Armed Services Vocational Aptitude Battery is a timed, multi-aptitude test used for entrance into the military. This battery of tests will be administered to all seniors so that they will have this assessment completed if they choose to enter the military. A preparation guide for the ASVAB will be sent to all current seniors.

George Washington High School in conjunction with Danville Community College has the goal of preparing students for life after high school. These measures will equip students with options for work, military or college. GWHS students deserve every opportunity available to them and we want to be certain our community has young people ready for what lies ahead.

Sincerely,

Reyhan Deskins
Principal
George Washington High School
