# Combining Like Terms Activity

1. Look at each expression in the "Expression" column and identify the like terms. Circle or underline the like terms to help you see them more clearly.
2. Combine the like terms in each expression and write the result in the "Combine Like Terms Result" column.
3. If there are no like terms in an expression, simply rewrite the expression as it is.
4. Take your time and double-check your answers before moving on to the next exercise.
5. Have fun and challenge yourself to solve all the exercises correctly!

	Expression	Combine Like Terms Result
1	$3x + 2x$	
2	$5y + 2y + 3y$	
3	$4a - 2a$	
4	$6b + 1b - 2b$	
5	$7c - 3c + 5c$	
6	$10x + 3y - 2x + 4y$	
7	$2a + 4b - 3a + 5b$	
8	$6x - 2y + 4x + 3y$	
9	$8y + 5x - 2y + 2x$	
10	$9c - 2a + 3c - 4a$
