

# Counting Atoms Worksheet

Name: \_\_\_\_\_ Grade: \_\_\_\_\_

**Instructions:** Use the space for drawing by following the below steps

- Start at the START box and read the chemical formula inside each box.
- Count the total number of atoms using subscripts and parentheses.
- Move only to the box with the correct total atom count.
- Draw your path through the correct boxes using a pencil or colored pen.
- Reach FINISH, then check your answers and retry if needed.
