Combining like terms - dice game

1. Roll the dice: The number you get on the dice will determine which expression you will work with. For example, if you roll a 3, you will choose the third expression from the list.
2. Once you have chosen an expression, write it down on a separate piece of paper or a whiteboard.
3. Now, use the concept of combining like terms to simplify the expression. Perform the necessary additions to get the final answer.

 $2s + 3s$	 $4m + 2m + 3m$	 $3p + 1p + 2p$
 $5f + 2f + 4f$	 $c + 2c + 3c$	 $2j + 2j + 2j$
